Luke 23:33... "And when they were come to the place which is called Calvary, there they crucified Him..."

There are many unbelievers in the world. Those who do not believe that Jesus Christ was the Son of God. There always will be. Even as Christ was crucified the mocking voices cried, "If thou be the king of the Jews, save thyself!"

We are not saved from sin by proof but by faith. God said He loved us, that He gave his Son for us, that whosoever believeth, should not perish, but have everlasting life.

"Whosoever cometh unto me I will in no wise cast out," Jesus said. Whosoever means you.

Have faith in God. Believe today.

**GERALD CICIO**

Mrs. Alvester Salmond is one of two competing for a one-year position in Saturday's School Board election.

She has told the Press-Record, "I reside at 93 Hill St., Madison.

I am a lifetime resident of the Quad-City area. I attended Lincoln School, Venice, from grades one through ten.

I spent my junior and senior years at Madison High School and graduated from there in May 1961.

"I attended the F. W. Olin School of Practical Nursing for one year and graduated as a licensed practical nurse in 1963. I have since then worked in the nursing field and am employed by St. Elizabeth Hospital, Granite City.

"I am 35 years of age, married and the mother of two children who at this time are students at Venice Grade School.

"I have been involved in several community projects and also am a member of the Title Seven Advisory Council at the Venice School."

Mrs. Salmond favors eliminations of closed executive meetings.

"I think that open board meetings will be in the best interest of taxpayers, board members, administrators and students," she related.

"I am for a better educational system."

"A committee should be formed within the board to dig down and find more suitable educational approaches. Our students are going off to college without the basic backgrounds for future education."

"Our schools should teach courses and assign students to specific courses more suitable for their future educational needs."

"Our over-crowded classrooms should be split up to allow our children a better chance for learning."

"There should be better communication between administrators, parents and students."

"The board should consider more parental involvement when setting up rules and regulations in order to prevent hostility between teachers and students."

"Job vacancies must be filled

Gerald Cicio, 31, of 623 Broadway, is one of two running Saturday for a one-year unexpired term on the Venice Board of Education.

A lifelong Venice resident and a graduate of Venice High School, he is a member of the Venice Fire Department, the Booster Club and St. Mark's Church.

He is employed through Sheet Metal Workers Local 36.

He resides on Broadway with his wife, Lola, and their son, Jerry.

Cicio is seeking the lone one-year term on the board. His running mates for this election include John Henry Williams, Earl Hogan and Scott Worley.

"If elected, I would like to work with the other board members to bring the school back to the people and not the select few," Cicio comments.

"We are working for a better school and more parent-student involvement."

"I would also like to see a school board which will stand behind its teachers," Cicio concludes.

by people in the school district or those willing to move into the district.

"We are supplying tax money to other school districts, when it could easily remain within our district."

"We must protect our tax base."

"If I am elected as a member of the Venice School Board, I will try to the best of my ability to promote these goals," Mrs. Salmond concludes.

## Bethesda Baptist Sunrise Services

Bethesda Baptist Church, 3035 Narnock Drive, will host Easter Sunrise Services at 6 a.m., with two other area churches, according to the host pastor, the Rev. Luther Abbott. Joining in the observance will be the First Baptist Church of Mitchell and New Hope Baptist Church.

The Rev. W. J. Richardson of the Mitchell Church will deliver the worship message and the New Hope Choir will provide the special music.

Rev. Abbott extends an invitation to area residents to attend the services.

## Hope Lutheran Church Easter program set

Easter Sunday at 8 and 10:30 a.m. families of Hope Lutheran Church, 3715 Wabash Ave. will break open more than 100 Lenten "Love Loaves," spilling out hundreds of pennies, nickels, dimes and quarters.

The Love Loaf project was initiated by the church as a means to help feed starving people in the world's disaster areas.

The Rev. David Fielding, pastor, said the Love Loaves are small containers in the shape of a loaf of bread. Families in the church placed the containers on their dinner tables as prayer reminders of the project and members of the family were encouraged to contribute coins toward famine relief.

The proceeds will be used to fight hunger in disaster areas of the world through two organizations. The church will send 50 per cent of the money to Lutheran World Relief, World Vision International, originator of the Love Loaf project, will receive 50 per cent for emergency relief work. World Vision is an interdenominational, nonprofit Christian humanitarian agency which combines social concern with evangelism in 26 countries.

Pastor Fielding said, "We

believe the program was a success. It gave our church families a new awareness of world need as well as an opportunity to do something about it. It costs World Vision \$15 to feed a hungry family of five for a month, so we have a feeling that we have done something important. This was in keeping with the true spirit of Lent."

## Area crime drops 16.9% during '76

Major crime in the Quad-City area declined 16.9 per cent during 1976 from the 1975 totals, according to figures released by the Illinois Bureau of Identification, criminal justice information services. Major crimes dropped from 4,494 cases in 1975 to 3,754 in 1976 in Granite City, Madison, Venice and Ponton Beach.

Granite City showed a 20.5 per cent drop in the major crimes tabulated by the FBI study, while Ponton Beach enjoyed a 34 per cent decline during 1976, compared with 1975.

Crime in Madison and Venice increased slightly, but not enough to offset the drops in the surrounding areas. Madison statistics showed a four per cent increase in the crime index

between 1975 and 1976 totals while a 4.5 per cent increase was noted in Venice in the same period.

Ponton Beach statistics showed decreases in every category, except forcible rape, where the number of cases reported increased from one in 1975 to three in 1976, a 200 per cent climb.

Murder and voluntary manslaughter declined from 1 to zero, a 100 per cent drop; robbery decreased from 10 to two, an 80 per cent decline; and the number of reported aggravated assaults and battery cases declined from 11 to seven, a 36.4 per cent decrease. Declines in Ponton Beach also were reported in the number of burglary and forcible

entry cases, down 56.6 per cent from 143 cases to 62; the number of theft cases, down 6.2 per cent from 146 cases to 137; and the number of motor vehicle theft cases, down 48.6 per cent from 38 cases to 18.

Madison showed declines between 1975 and 1976 in two categories as the number of burglary or forcible entry cases declined 8.9 per cent from 180 cases to 164, and the number of motor vehicle theft cases dropped 18.8 per cent, from 57 to 48.

Increases in Madison crimes were noted in rape, up 100 per cent from one to two; robbery, up 22.2 per cent, from 18 to 22 cases; aggravated assault and battery, up 42.9 per cent from 28 cases to 40; and theft cases, up 2.8 per cent from 287 cases to 295. The number of murder and voluntary manslaughter cases in the city climbed from zero in 1975 to two in 1976.

In Venice, there were no rape reports in 1976, a 100 per cent decrease from four in 1975, and

the number of burglary and forcible entry cases remained the same with 121 each year.

Crime in all other categories increased in Venice. Robbery was up 40 per cent from 10 cases to 14; aggravated assault and battery was up 6.5 per cent from 31 to 33 cases; theft climbed 4.7 per cent from 170 and 178 cases, and motor vehicle theft was up 16.7 per cent, from 21 to 24 cases.

The number of murder and voluntary manslaughter cases in Venice was up from zero in 1975 to three in 1976.

The total number of major crimes in Ponton Beach during 1976 declined 34 per cent, from 347 in 1975 to 229 in 1976, according to the yearly comparison.

Madison showed 573 major crimes in 1976, a four per cent increase over 571 major crimes in 1975, the figures showed.

In Venice, the number of major crimes climbed from 354 to 370 between 1975 and 1976 for a 4.5 per cent increase overall,

according to the FBI report.

Granite City totals previously released showed the number of major crimes declined from 3,222 in 1975 to 2,563 in 1976, a 20.5 per cent decrease.

While murder and voluntary manslaughter was up 50 per cent, declines were noted in rape, 14.3 per cent; robbery, 66.2 per cent; aggravated assault and battery, 47.3 per cent; burglary or forcible entry, 22 per cent; theft, 16.5 per cent; and motor vehicle theft, 23 per cent.

A 7.1 per cent drop in crime also was noted in the unincorporated portions of Madison County.

### HURT IN ACCIDENT

Mary Conine, 213 Sunny Shores, Ponton Beach, was treated at St. Elizabeth Hospital last week after she was injured in an auto accident. She hit her chest on the steering wheel. X-rays were taken and she was released.

## Anti-farm trust bill

To forestall any new "ag-land trust" proposals, Cong. Paul Simon, D-Ill., is co-sponsoring a bill to prohibit any federally-insured bank from buying farm land with common trust or collective investment funds.

Simon said the bill is aimed at keeping Continental Illinois Bank and Trust Co. of Chicago from establishing a \$50 million investment fund for farmland purchases. Continental has abandoned the proposal but Simon wants to head off any further such ventures.

The bill was developed by Rep. James Leach, R-Iowa. It would amend the Federal Deposit Insurance Act to prohibit any bank insured under the act from buying agricultural real estate with money from a common trust or other collective investment funds.

"This proposal by Continental Bank is another threat to family farming," Simon said.

"I think we have to protect the owner-operator concept in farming as much as possible by discouraging purchases by banks and corporations, which are interested in farming purely as business transactions instead of as a way of life."

## Burglary at Unger's Market

About \$225 in change and silver dollars and a .38 caliber pistol were stolen during a burglary at Unger's Market, 2262 State St. It was discovered Monday.

A glass pane was removed from a rear door, but a wire mesh prevented the door being unlocked. Attempts then were made to pry the door open with chips of wood being broken from the frame.

A hole then was punched in the bottom door panel and entry was gained by reaching through to unlock the door and remove a bar across it.

The cash register drawer was pried open, but nothing was in the drawer. The change and silver dollars were taken from two cigar boxes near the register.

### RECORD SALES VOLUME

The Walgreen Co. again reported record volume during the second quarter of fiscal 1977, according to Charles R. Walgreen III, chairman and chief executive officer, and Robert L. Schmitt, president and chief operating officer. Sales for December, January and February rose 4.7 per cent over the same period last year to \$142,992,066. Sales for the first six months of the fiscal year, earnings reached \$7,328,511, an increase of 5.9 per cent over the comparable period in 1976.

Second quarter earnings were \$6,174,318 or just over the year ago figure of \$6,131,262. For the first six months of the fiscal year, earnings reached \$7,328,511, an increase of 5.9 per cent over the comparable period in 1976.

Adams, 1,527, Jerry L. Adams, 1,499 and there was a tie at 1,491 between Andy Besserman and Mrs. Helen Hawkins.

Other trustee candidates were Joseph Boyer, five votes behind them at 1,486, incumbent Kenneth Gieson, 1,436 and Marian Pervan, 1,364.

If the official vote canvass, conducted within five days, fails to resolve the tie between Besserman and Mrs. Hawkins, Clerk Teator will consult with legal authorities.

Teator believes that drawing of lots in some fashion is the legal procedure to break such a deadlock.

Six of the winners — Davis, Teator, Macios, Hessler and the two (unrelated) Adams — ran on the United for Progress ticket along with Peck, Bell and Boyer.

Bailew, Mchelic, Mrs. Hawkins and Besserman were part of the Continued Action ticket headed by Supervisor Whitsell and including Zeffi, Madison, Gieson and Pervan.

The lead fluctuated often Tuesday night as additional polling places reported to the Town Hall. Whitsell was leading until the final precinct, Six, reported at 11:15 p.m.

The Davis-Whitsell race in Precincts One through 11 was tallied as 32-164, 143-123, 86-161, 242-169, 137-130, 258-131, 102-167, 113-57, 143-228, 63-64 and 234-100. Davis carried six polling places and Whitsell five.

The Teator-Zeffi results: 53-141, 161-101, 86-151, 247-155, 134-222, 155-106, 171-114, 163-206, 67-64 and 245-86, a 7-4 division of the 11 precincts.

Peck-Bailew: 42-159, 172-93, 82-155, 243-160, 88-178, 230-151, 100-180, 115-146, 146-225, 68-65 and 215-115.

Macios-Madison: 43-154, 151-106, 89-151, 243-162, 116-131, 230-157, 105-177, 107-53, 151-217, 65-65 and 221-107.

Bell-Mchelic: 38-160, 136-120, 89-155, 242-167, 115-145, 211-171, 79-206, 118-50, 145-226, 61-70 and 223-110.

Hessler-Lee Adams-Boyer-Jerry Adams: 51-39-39-55, 137-137-143-136, 94-89-88-83, 235-234, 235-227, 149-115-100-92, 234-221, 214-242, 105-123-107-104, 116-117, 119-115, 157-158-149-140, 61-62-64, 61 and 248-221-229-225.

Besserman-Gieson-Pervan-Hawkins: 151-151-145-112, 128-116-110-126, 146-157-144-133, 157-159-162-146, 137-135-121-177, 152-133-123-174, 173-162-161-171, 50-44-51, 225-210-209-206, 71-66-65 and 101-103-82-105.

The unofficial Nameoki Township voter turnout on Tuesday was 3,129.

Included in the figures were an estimated 198 votes at Precinct One, 281 at Two, 253 at Three, 421 at Four, 278 at Five, an estimated 389 at Six, 299 at Seven, 173 at Eight, an estimated 371 at Nine, 132 at Ten and an estimated 334 at Precinct Eleven.

## Pashoff

(Continued from Page 1)

Joe Willie Roberts tallied 1,830. The three were unopposed.

Voting in the 11 precincts was consolidated into single ballot boxes at each of five locations.

Ballots cast totaled 1,121 at a joint site of Precincts 6-7-8-9, 416 at combined Precincts 12, 349 at the voting place for 4-5-11, 227 at Precinct Three and 32 at Precinct Ten.

At the five locations, in that order, Pashoff won 974-50, 369-10, 322-8, 222-2 and 28-4.

Two City Council positions were filled in the Fifth Ward. A full, four-year term went to Lloyd H. Bailey over Alderman Steve A. Basarich 700 to 593.

Mrs. Margaret Nonn, widow of former Alderman Walter F. Nonn, won a two-year term with 625 votes to 473 for Alderman Curtis Blevins, 157 for Gary Barnstable and 68 for Tommy Ray Taylor.

In the Seventh Ward, with Coleman not seeking re-election there, Paul Ray Bowler was elected with 757 to 585 for George M. Gordon, 496 for former Alderman Thomas Boker and 420 for Thomas J. Skubish.

In winning as city treasurer to replace retiring Treasurer Paul Rutledge, Petrillo led in all seven wards.

Petrillo defeated Coleman and Robinson 499-260-155 in the First Ward, 788-517-306 in the Second Ward, 727-515-297 in the Third, 762-616-425 in the Fourth, 924-545-332 in the Fifth Ward, 883-543-447 in the Sixth and 938-900-401 in the Seventh.

Mayor Schuler led Partney 570-274 in the First Ward, 862-801 in the Second, 767-607 in the Third, 1,212-678 in the Sixth and 1,242-1,024 in the Seventh. Partney was ahead 958-832 in the Fourth Ward and 688-646 in the Fifth.

Supervisor Hagnum led Allen 659-267 in the First Ward, 878-748 in the Second, 787-525 in the Third, 1,046-781 in the Fourth, 738-555 in the Fifth, 1,250-623 in the Sixth and 1,271-934 in the Seventh Ward.

Clerk Stevens led Mrs. Mendoza in the First through Fourth Wards 672-242, 1,116-524, 963-389, 1,322-523, 798-508, 1,328-545 and 1,652-584.

Assessor Cruz tallied 810-1,384-1,120-1,566-1,125-1,511-1,900.

Those who had backed County Board Member Partney for mayor gathered after the voting hours at the Moose Hall, while Mayor Schuler visited and spoke at an assembly at the Veterans of Foreign Wars Hall.

The mayor thanked voters and pledged continued progress and new community improvement programs, including the North Granite area.

"There are a lot of things we are going to do," he told the gathering.

The first precinct to report, at 7:04 p.m., Precinct 17 had a 35-35 tie for mayor.

Mayor Schuler obtained a lead (winning 63-26 in No. 20 at 8 p.m.) and increased it throughout the evening as additional returns were compiled at Stevens' office in the City Hall.

Precinct 31 reported at 12:15 a.m. Wednesday and the final precinct, No. 5 in Ward Two, reported at 12:20.

Backers of Partney, a son of the late Mayor Donald Partney Sr., said they had based their hopes on a larger election turnout. The day brought cold weather, contrasting with a recent warm spell.

## Study whether flame-retardant chemical is safe

By JANETTE MUELLER  
Madison County Extension  
Advisor in Home Economics  
Current publicity concerning alleged dangers of the chemical Tris B.P. — used on clothing, particularly children's sleepwear — has caused widespread concern.

Tris B.P. is a chemical that was used on fabrics and fibers to make them flame-retardant. However, because Tris B.P. was challenged as a possible cancer risk, it has not been used on most clothing since the spring of 1976.

Extensive research is being conducted by the Consumer Product Safety Commission, the National Cancer Institute and other agencies to determine the validity of this concern.

During the past year, the clothing industry attempted to discontinue sale of Tris B.P. for apparel use. Leading retail stores also stopped buying fabrics that had been chemically treated with Tris B.P. Therefore, very few flame-retardant fabrics and garments manufactured in recent months have been treated with Tris B.P.

Under federal law, all children's sleepwear between sizes 0 and 14 must be made of flame-retardant fabrics. Two methods of manufacturing flame-retardant garments are used.

Treating fabrics with a chemical is one method. The second method involves making fabrics from flame-retardant fibers.

Inherently flame-retardant fibers produce fabrics that pose no known cancer risks. The effects of chemically produced flame-retardant fabrics are presently being researched.

Read the garment label to determine whether clothing is treated chemically to induce flame-retardancy or is made from naturally flame-retardant fibers.

Modacrylic fibers were used by manufacturers in early attempts to comply with the flammability law.

Presently, flame-retardant nylons, polyesters, acetates, rayons and matric (Vinal and Vinyon) fibers are also used. Garments made from these fibers meet flammability standards and are considered safe.

If you purchase a new flame-retardant garment which is chemically treated, wash it three times before wearing.

The extra chemical that is not washed off during production creates the health hazard. This excess can be absorbed into the skin when the garment is worn.

Older, chemically-treated garments are safe to wear if they have been washed three or more times.

## TAKE ANTIQUE CLOCK

An antique pendulum clock is the only thing known missing after a burglary at the home of Ruth Geroff, 2602 Cleveland Blvd., between 2 p.m. and 10:35 p.m. Wednesday. A bathroom window was pulled from the frame to gain entry. Several doors and windows were opened and left open.

Those who had backed County Board Member Partney for mayor gathered after the voting hours at the Moose Hall, while Mayor Schuler visited and spoke at an assembly at the Veterans of Foreign Wars Hall.

The mayor thanked voters and pledged continued progress and new community improvement programs, including the North Granite area.

"There are a lot of things we are going to do," he told the gathering.

The first precinct to report, at 7:04 p.m., Precinct 17 had a 35-35 tie for mayor.

Mayor Schuler obtained a lead (winning 63-26 in No. 20 at 8 p.m.) and increased it throughout the evening as additional returns were compiled at Stevens' office in the City Hall.

Precinct 31 reported at 12:15 a.m. Wednesday and the final precinct, No. 5 in Ward Two, reported at 12:20.

## Urge energy conservation and resource development

Governor James R. Thompson announced on Wednesday a comprehensive energy plan for Illinois which concentrates on conservation and resource development. It calls for an Energy Conservation Act and major reforms of the Illinois Commerce Commission.

In a special message on energy submitted to the legislature, Thompson said his plan balances the competing interests of consumers, business, environmentalists and the energy industry.

He said it is compatible with federal policy, relates to an interdependent world economy, and encourages cooperation between the legislature and the executive branch.

"The program places equal emphasis on energy conservation and energy resource development."

It seeks to develop those resources we have available in an environmentally safe way and seeks to reduce waste and

inefficient utilization of energy in Illinois," Thompson said.

In the area of energy conservation, the governor proposed the Energy Conservation Act of 1977 which would require the Department of Business and Economic Development (BED), Division of Energy, to adopt standards for local building codes to save fuel.

The standards would apply to most new buildings. Standards would also be developed to reduce waste energy in lighting buildings open to the public.

The bill would improve purchase procedures for energy-saving equipment bought by the state.

It would require that consideration be given to costs of operation over the equipment's useful life, rather than only the initial acquisition costs.

Adoption of the legislation, according to Thompson, would put the state in compliance with current federal requirements for energy conservation and

would qualify Illinois for nearly \$2 million in federal aid.

The governor also indicated support of at least 14 bills which have been proposed by the Energy Resource Commission. He said only minor amendments need to be added for his full support.

Gov. Thompson complemented the Resource Commission and the Department of Business and Economic Development for creating a base for the state energy program.

A major part of the resource development proposal deals with reform of the Illinois Commerce Commission.

This package of bills, which will be introduced later this week, includes the creation of a utility consumer advocate in the Governor's Office of Manpower and Human Development.

This would provide a vehicle to develop the full ramifications of rate increases for different classes of consumers, Thompson said.

## Dixon cracks down on automobile use

By AL MANNING

SPRINGFIELD — Sec. of State Alan Dixon has cracked down on the use of state cars by his employees.

So far, 23 automobiles have been turned in by state employees who Dixon thinks don't need transportation for their work.

Gene Callahan, assistant secretary of state who is spearheading the change, says the employees were using the cars primarily to drive between their home and the office.

When they occasionally need a car for their work they will be assigned one, he said.

Of course, there have been other secretaries who have said they were cracking down on the use of cars. However, statistics show the office has as many cars today as it did six years ago — 330.

In 1971, then-Sec. of State John Lewis announced a crackdown on car use. He said 12 employees who had full-time use of automobiles were turning them into the motor pool.

Former Sec. of State Michael Howlett announced in 1973 that two dozen front office executives had turned in cars.

But when Dixon took the office, he discovered many more top aides who had no apparent need for an auto.

Some of those who had a car taken away resisted strongly.

"Dixon has to understand that the politicians won't like this and it will hurt him in the next election," one employee said.

"I need a car so the front office can remain flexible," one employee said. "Otherwise I might get held up if the car was held in reserve."

Another employee suggested the state parking spot was not safe at night because of vandals, so the car should be driven every day where it would be safe.

How did the practice start in the first place?

The use of a car often was

an incentive for attracting a new state government.

Unlike today, the salaries were relatively low, so a car was an attractive fringe benefit which didn't have to be counted as income tax time.

But irritated taxpayers, especially in Springfield, were aware of the many abuses.

Over the years, there were stricter restrictions with state insignias placed on the sides of the cars and more of the cars were assigned the "U" license plates, making them more identifiable.

Former Gov. Dan Walker took the issue a step further by turning in the governor's limousine in favor of a smaller car.

Of the 23 cars ordered turned in by Dixon, 14 were assigned to the drivers' license division. Cars for use assigned to James Worthen, William Logan, David Moss and Jack Livengood were withdrawn. The 10 others were used at field stations around the state.

Key Gesterfield, state librarian; Bob McKeating, purchasing agent; John Lawler, fiscal control; Robert Olson, management information systems; John Pendleton, vehicle services; and Norb Johnson, physical services, all had full-time use of a car. No more.

No one in the front office currently is assigned a car. In the Howlett administration, Edgar Callahan, John Giamulis, Bucky Sebastian and Ted Baccio had cars.

Gene Graves, who succeeds Johnson at physical services, does have the use of a car occasionally for his travels. He is the one reassigning the autos once they are withdrawn.

Thus far, the recalled cars are being assigned to the investigations division and to some field offices. In some cases they are being substituted for cars which need replacing, thus saving the cost of purchasing new cars.

## Venice schools to contract with teachers at Lincoln

The Venice Board of Education at its meeting last night approved granting working contracts to teachers employed at the Venice-Lincoln Technical Center.

Teachers working at the adult vocational school previously have not had formal working agreements with the Venice School District. Alternative contracts to those held by faculty members at Venice grade and high schools were proposed at one time.

Board members re-scheduled their next meeting to Monday, April 18, when votes will be cast on the Saturday school district election.

The board will reconvene at a regular meeting, taking place immediately after the canvassing. Board President Jack Tolliver announced.

The Cahokia Mound Council, Boy Scouts of America, was authorized to distribute interest survey forms to students in the 7th through 12th grades.

The request was made by W. F. "Mick" Strange, council vice-president for Exploring.

A tentative school calendar for 1977-78 was adopted, and K. Duane Rankin, Venice-Lincoln Technical Center administrator, was authorized to draw up a program proposal for the 1977-78 school year for the board's consideration at its next meeting.

Bids still will be accepted for a 10-burner gas cooking stove and a 40-cubic-foot deepfreeze unit. Bids have been received at the school cafeteria. No bids were received on a previous call.

Use of three buses from

Venice-Lincoln Center for non-school functions within the district is unfeasible under the present insurance policy, it was learned.

A rider to the current policy is needed to permit use of the vehicles by in-district groups and will require an additional \$45 payment per bus, per year, plus a \$30 per trip insurance fee, Supt. of Schools Robert Vickers informed the board.

Use of the buses was sought by a senior citizens group and by Venice fans wishing to attend the Illinois state championship basketball tournament at Champaign, won by the Madison Trojans.

The cost of the insurance, amounting to \$1,092 under the Title IV program and \$92 for a flagpole at Venice-Lincoln, were approved.

## Contracts let on lift station, 13th street

Replacement of the Lockhaven Avenue pump station which serves the sanitary sewer line to the Archer Daniels Midland plant and improvement of 13th Street from Granite Avenue to McCambridge Avenue will get underway within the next two weeks as the result of City Council actions Wednesday night.

On the basis of bids received earlier, council members awarded contracts for both projects in a regular meeting.

The contract for the lift station replacement was awarded to G. H. Sternberg & Co. of Granite City on a bid of \$28,815.

Contract for construction of curb and guttering in the 13th Street project was awarded to C. D. Peters Contracting Co., the lowest of five bidders on that project. The Peters firm bid \$33,945.

It was the second bidding on the lift station project which stems from repeated problems in the sanitary sewer line from ADM to the lift station. Street Department officials have contended that because of the heavy sludge-type sewage from the ADM plant, the original lift station was unable to handle the

sewage flow, causing backups along the line which a number of residences are connected to.

The sewer line and the present lift station were built by ADM as part of its plant construction several years ago. Problems with the sewage flow resulted in numerous meetings between ADM officials and Street Department and engineering officials in an effort to solve the problem.

The city eventually insisted on complete replacement of the lift station with a new type of pumps expected to handle the sewage flow. ADM agreed to replace the station at a cost of \$30,000.

The first bid call a month ago for rebuilding the lift station resulted in a low bid of more than \$42,000, or about 42 percent over the \$30,000 cost limit.

A second bid call was made, resulting in three offers that included in the \$28,815 bid by Sternberg, a bid of \$35,750 by M. H. Wolfe & Co., and a bid of \$46,845 by C. D. Peters Co.

Bids for the 13th Street improvement presented to the council Wednesday night included the low bid of \$33,945 by the Peters firm, \$35,694 by Red-

Cut Stone Co. of Wood River, \$35,717 by CAM Construction Co. of Wood River, \$37,563 by the Paul Seebold Co. of Granite City and \$42,983 by Helmkamp Co. of Alton.

The council's meeting session was rescheduled on Wednesday night from its regular Tuesday date because of the city election on Tuesday.

## News notes

Ten U.S. senators told the U.S. Transportation Department on Tuesday that the only way to stop severe deterioration of Alton Locks and Dam 26 is to build new facilities.

Replacement would be about as cheap as repair, a Sverdrup and Parcel engineering study showed.

Rep. Joe Lucio and Rep. Jim McFike were among 104 state legislators voting this week to increase allowances to \$17,000 for General Assembly members' district offices. The 29 opposed included Rep. Everett Steele.

Illinois Auditor General Robert Cronson yesterday called for intensive retraining of state public aid caseworkers.

New legislation yesterday calls for merit selection of state judges.

U.S. Supreme Court Justice Harry Blackmun declined yesterday to block proposed move of a communications headquarters from the Kansas City area to Scott Air Force Base, Belleville.

WATCHES, COINS TAKEN

Two wristwatches valued at \$150 and \$62, about \$30 in change and a wallet were stolen during a burglary at the home of Thomas Gushieff, 3408 Lydia Lane, between 7 a.m. and 4:30 p.m. Tuesday. There were no signs of forced entry.

## Mrs. Rose Huber, 82, dies

Born in Germany, Mrs. Huber resided here from 1925 until three years ago when she moved to Missouri to make her home with a daughter.

While residing in Granite City, Mrs. Huber was a member of Concordia Lutheran Church.

Her husband, August Huber, died in 1952.

Survivors include one daughter, Mrs. Ray (Marilyn) Love of Roach, Mo.; a brother-in-law and nieces and nephews.

Funeral arrangements are given in the obituary column.

## PROBATION, FINE FOR ALTERED LOTTERY TICKET

A Chicago man was placed on one year's probation after pleading guilty Tuesday to violating the Illinois Lottery Law. He was ordered to pay \$1,000 to the Illinois Department of Revenue.

Warren Sampson, 31, pleaded guilty to one count of altering a \$20 Illinois lottery ticket which he said he fraudulently redeemed for cash in 1974. State Revenue Department officials said the fraud was discovered when the altered ticket was rejected by the Lottery Division's computer system used to verify winning tickets.

Qualifying numbers had been superimposed over the original numbers on the ticket that was redeemed.

Earl W. Hogan, a candidate in Saturday's Venice School Board election, displayed sample ballots yesterday that indicate the issue is using the Jack Tolliver candidacy in two different groups, he said. Tolliver is president of the board.

Ballots seen in the Eagle Park Acres area link the Tolliver-Glasper-Armold-Salmond candidacy to the Venice School Board.

Those seen in the City of Venice appear to group together Tolliver-Taylor-Glasper (incumbents).

Hogan said he has no knowledge of who ordered and distributed such sample ballots.

A school spokesman said he doubted that such sample ballots had been ordered by incumbent board members.

AN AUTO ON FIRE

An auto owned by Joe Kremer, 2804 Birch Ave., ignited at 4:30 p.m. yesterday in the Namekoi Village Shopping parking lot, outside the former Grand store, due to a faulty gas line under the hood.

Firemen extinguished the blaze, which caused \$1,200 damage to the vehicle's front end.

## Jay Maurer ill; critical

Jay Maurer, 633 Washington Ave., Venice superintendent of the Venice School Board and a member of the Madison County Board, is in critical condition in the intensive care unit of St. Elizabeth Hospital today after suffering an apparent heart attack at his home.

An inhalant unit was called to Maurer's home at 11:00 p.m. Wednesday and he was taken immediately to the hospital.

## Sample ballots differ — Hogan

Earl W. Hogan, a candidate in Saturday's Venice School Board election, displayed sample ballots yesterday that indicate the issue is using the Jack Tolliver candidacy in two different groups, he said. Tolliver is president of the board.

Ballots seen in the Eagle Park Acres area link the Tolliver-Glasper-Armold-Salmond candidacy to the Venice School Board.

## Condition improves

Jeffrey Teller, 12, of 5025 Lewis Ave., remained in a coma and in critical condition today in the intensive care unit of Cardinal Glennon Hospital, St. Louis, where he has been since he was struck by a car while riding his bicycle in a block of Maryville Road, March 28.

His mother said she believes he is showing signs of improvement, although he has not come out of the coma. He has opened his eyes several times since moving his head, the mother said.

He suffered a baseline skull fracture and a contusion to the brain in the accident, she said.

## Forsyth may run as state treasurer

SPRINGFIELD — William D. Forsyth Jr. is considering a try for the Democratic nomination for state treasurer.

"I'm just sitting and observing right now," says the Springfield insurance agent. "I'm not making any decision one way or another. But I know I can't wait too long."

He figures anyone who decides to enter the race will have to start organizing the building support by summer. Candidates will have to file in December if the March primary date isn't changed, and Democratic slatemakers usually convene in November or early December before the filing period begins.

Forsyth twice has been elected as a University of Illinois trustee, a statewide post which draws little public attention. He led the field of trustee candidates when he was elected in 1970 and was the second highest vote-getter among 21 candidates when he was re-elected in 1976.

He hasn't been as fortunate in two previous appearances before the slatemakers in search of support for more important statewide posts.

The last time he wanted to be slated for either lieutenant governor, secretary of state or state treasurer — and in that order of preference.

This time, if he goes for anything, it would be for state treasurer, he indicated.

"It's the only one that's really basically open," Forsyth notes.

Don R. Smith, a Republican appointed to the post as a result of a deal between Sec. of State Alan Dixon and Gov. James Thompson, said when he was appointed to serve out Democrat Dixon's term that he wouldn't run for the post in 1978.

## State urged to fund airport land purchases

Illinois should continue its fight for a new major airport at Columbia-Waterloo in Illinois and should consider state funds for land acquisition was the consensus of opinion during a meeting of airport planners and officials Wednesday in the Washington, D.C., office of U.S. Senator Charles Percy.

## Suit by security company

A suit for \$85,000 damages has been filed against Granite City as the result of an incident allegedly involving a Granite City detective and a security guard at the Pizza Hut, 1533 Johnson Road, on March 19. City Council members were informed Wednesday night.

The suit was filed by Michael Patterson, an employee of the C & P Security Service, and Albert Pritchett of 1841 Spring Ave., doing business as the C & P Security Service, alleging that Patterson was "falsely arrested and falsely imprisoned" as a result of the incident.

Patterson seeks \$10,000 actual damages and \$25,000 punitive damages in one count of the suit. Pritchett, who alleges the security firm underwent embarrassment and humiliation as a result of Patterson's arrest, seeks \$25,000 actual damages and \$25,000 punitive damages in a second count of the complaint.

The suit was filed in Circuit Court at Edwardsville, according to a notice sent to the council by Dick H. Mudge Jr., Edwardsville attorney who is handling the case for Patterson and Pritchett.

The complaint states that the incident from which the suit stems was precipitated by a detective of the Granite City Police Department and that "the policeman, without provocation, made physical attack on Michael Patterson."

It alleges that Patterson was falsely arrested "without cause or justification."

Pritchett alleges in the second count that "the actions of the Granite City police are a continuation of a series of incidents of harassment by various police officers of Granite City designed to embarrass, damage and destroy the plaintiff's business and occupation as a licensed private detective and security agent."

The detective has denied that he provoked the incident, and two other persons with him have supported his statement. Meanwhile, John Kulaska, investigator for the state's attorney's office, said he has completed his investigation of the incident and that he has turned over what he learned to State's Attorney Nicholas Byron.

## Growth and development through cooperation in area — Dr. Shaw

Dramatic growth and development in the local region can be achieved through the cooperation of businesses, industries and the educational community, according to President Kenneth A. Shaw of Southern Illinois University at Edwardsville.

Speaking to the board of directors of the Tri-Cities Area Chamber of Commerce Wednesday evening at Sunset Hill Holiday Inn, President Shaw said the community needs active service organizations such as the Chamber of Commerce, dedicated to striving for full employment and a better way of life for everyone.

The Chamber, which serves Granite City, Madison, Venice, Pontoon Beach and Mitchell, held its April board dinner meeting last night.

The university president pledged continued participation of the university in a cooperative effort to spark revitalization of this region: "By acting in concert, economic strength can be fostered and we all will prosper."

"The university and the region have made great strides forward in the past quarter-century. I pledge to you that we will continue to work together, strengthening a warm bond of friendship that will lead us all to spectacular progress in the future."

Citing the role of SUE in training leaders for the area, the president said, "An educated work force is constantly sharpening its skills, thereby increasing production."

Further, education brings to the individual human spirit larger perspectives, generating an awareness that today no man can be an island unto himself.

"With education, this urge to contribute to the improvement of the community can be better directed."

Dr. Shaw said it is his hope to make the university the best of its kind anywhere.

"If we hope — and pay for — the best, we can produce citizens able to cope with the increasingly complex demands and pressures of our larger society in a truly effective — and humane way."

"Our region needs such citizens, and I promise you to do my very best to build a resource that will give them to you."

The president emphasized that a strong, productive commercial and industrial base is essential to the healthy development of the region.

He said business and industry recognize the need for a labor force that can keep pace with technological development and improved management and production techniques.

"Our educational resources must stay geared to meet these needs," Dr. Shaw said. "If we produce more skillful workers and managers, we keep abreast of the fierce competition."

"If anyone thinks that we should remain satisfied with the way things are right now, he is simply not living in a world of economic or social reality."

Pointing to specific ways the university is contributing directly to improving the quality of life in the region, Dr. Shaw cited the Environmental Resources Training Center, which trains operators for sewage treatment plants; the Center for Urban and Environmental Research and Services, which attacks all types of community problems; the dental clinic of the School of Dental Medicine, which assists with the region's health care; and the Gerontology Program.

The latter is exploring new ways to help elder citizens "live out their days in dignity and happiness, with many discovering new ways to be more fully alive and continuing to be productive."

In regard to the Dental School, the president pointed out that a dental clinic will be developed in East St. Louis, and he emphasized the success of the East St. Louis Center of the university in providing educational opportunities to residents of that area.

"We believe we can demonstrate that we have appreciably contributed to an improvement of the quality of life in the area," Shaw said, "and this in turn means that we have contributed to the betterment of the economy of the area."

The president said the university itself, with a work force of more than 2,100 faculty, staff and students, is one of the major employers of the region.

"Last year, we operated on a total budget of \$30.5 million, with more than \$24 million being pumped into the regional economy in wages and salaries," Dr. Shaw said.

"There are many services and goods purchased out of these monies."

The SUE president said the impact is even greater than the figures indicate because for every dollar spent by the university, another \$1.12 is generated in the area economy, and for every job another half-job is created in the community.

Addressing problems which must be faced in the future, Pres. Shaw said transportation is a serious consideration for an institution which draws 90 per cent of its students from a 50-all of the region will suffer.

"It's a small problem now, but it will be a fantastic one if gasoline doubles and triples in price," he said.

"A major priority for all of us must be a rational, energy-conscious transportation system."

The president warned that if problems such as transportation are allowed to affect the quality of life in this area, all of the region will suffer.

"We are interdependent; we must help one another. Any weakness in one adversely affects others."

"We can make this region a better place to live and work. Let's commit ourselves to this end."

Dr. Shaw said the university itself, with a work force of more than 2,100 faculty, staff and students, is one of the major employers of the region.

"Last year, we operated on a total budget of \$30.5 million, with more than \$24 million being pumped into the regional economy in wages and salaries," Dr. Shaw said.

## Statewide grand jury plan sought

Governor James R. Thompson and Attorney General William J. Scott announced Wednesday they will join forces to push for passage of a statewide grand jury system during the present General Assembly session.

"General Scott envisioned the need for a statewide grand jury system years ago, but the legislature has not yet approved it."

"I hope that together we can convince the legislators to

provide us this vital law enforcement tool this year," Gov. Thompson said.

"The state grand jury is not designed to change the present county grand jury system at all."

"What the statewide system will do, however, is permit the attorney general to attack consumer fraud and other abuses of the public on more than a countywide scale."

"This will benefit all law-abiding Illinoisans," the governor commented.

## Five are sentenced

Four young men have been sentenced to serve probation and short jail terms and a woman has received probation in felony sentences before Circuit Judge William Beatty at Edwardsville.

Stanley D. Marler, 19, of the 2800 block of Sunset Drive, was sentenced Monday to serve one year of probation with the first six months in the Madison County Jail at Edwardsville for burglary.

A co-defendant, Wesley Wallace, 18, of the 2800 block of Buxton Ave., has received the same sentence.

Marler and Wallace pleaded guilty to breaking into the auto of former Granite City Police Sergeant Kelly Hodges in the 3900 block of Village Lane Feb. 16. Hodges arrested them at the scene and alleged his citizens' band radio had been removed and placed on the hood of the car the two were using.

Randall K. Parks, 26, of the 2800 block of Circle Drive, and William P. Karius, 21, of the 1100 block of Grand Ave., Madison, were sentenced by Judge Beatty to serve one year of probation after pleading guilty to burglary.

Parks also was sentenced to serve six weeks in the Madison County Jail beginning June 1 and Karius was sentenced to serve 30 days in the jail starting Monday.

They pleaded guilty to entering the home of Marian and Edith Sullivan, 2627 Circle Drive, Dec. 19, and removing a television, vacuum cleaner, radio, coffee maker, crock pot and clock.

Judge Beatty also sentenced Edna Downs, 45, of the 4400 block of Kirkpatrick Homes, to serve one year of probation after she pleaded guilty to unlawful possession of a controlled substance.

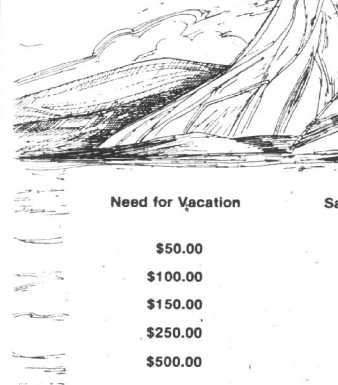

She was among 10 persons arrested Jan. 17 in connection with an undercover investigation by agents of the Metropolitan Enforcement Group (MEG) of Southwestern Illinois.

MEG agents charged her with two counts of unlawful delivery of drugs to agents, but she pleaded to the reduced charge of unlawful possession of a controlled substance.

## Plan no prosecution in theft of campaign signs

Authorities have decided not to seek prosecution against a 35-year-old Granite City man and three juveniles with him who allegedly took more than 100 campaign signs from yards Wednesday without permission.

Police first were told the four were in a flatbed truck picking up signs in the area of Johnson Road and Edgewood Avenue.

Officers searched for the truck, locating it parked in the 3400 block of Johnson Road, filled with signs for several candidates.

The man said he was authorized by someone in the Daniel Partney for mayor campaign to pick up Partney signs, but residents of homes were bringing him other signs, asking him to dispose of them.

Granite City Fire Chief Don Parente said the man was not authorized to pick up signs for Mayor Paul Schulz, City Clerk Robert W. Stevens, Granite City Township Supervisor Nelson Hagnauer or Alderman Earl Baker.

Signs for all of the candidates Parente supported were found on the truck.

Attorneys for both sides agreed there would be no prosecution if the man would return the signs to campaign officials, and the man complied.

## Chase burglary suspects

Two youths suspected of participating in a burglary Tuesday night, but eluded officers in the 2000 block of Missouri Avenue.

Police first were told that the home of Esther Atkins, 2227 Ohio St., was burglarized between 2 p.m. and 10:15 p.m. Tuesday.

Glass in the rear door was broken to gain entry. Stolen were two scanner radios, two table lamps, a television set and a slow cooker.

A neighbor reported seeing three youths carrying items in the alley behind the Atkins home about 8:15 p.m. Tuesday.

A short time after police were notified of the burglary, they received a report that two youths had been seen carrying lamps in the 2200 block of Bryan Ave.

Squad cars searched that area and saw two youths who appeared to be hiding behind a station wagon at 21st Street and Missouri Avenue. When an officer approached them on foot, they dropped several items and fled.

A foot chase ensued, but the youths ran into a yard in the 2000 block of Missouri Avenue and disappeared from view.

Police noted some items taken from the Atkins home were recovered near where the youths had been hiding. The boys appeared to be about 16 or 17 years old and one had long dark hair and wore a green Army jacket, they reported.

STEAL AND BURN AUTO

The auto of Alan Shemwell, 3204 Kirkpatrick Homes, stolen from his home after 8 p.m. Tuesday, was found burning in front of Madison High School at 1:25 a.m. Wednesday. A tool box containing mechanic's tools valued at about \$300 were stolen from the trunk.

Henry Pickett, 45, East St. Louis, was charged by Venice police with armed violence at 11:21 p.m. Wednesday after he allegedly fired a gunshot in the presence of two teenage boys near Lee Wright Homes.

Police said Mrs. Frances Hill, 23 Lee Wright Homes, reported a man fired a shot after asking her son, Barry Hill, 16, where another person was. The boy said the man left in a green Oldsmobile Cutlass.

Police later sighted the car and chased it down Route 3 into Brooklyn where the man jumped out of the car and fled on foot. The man was arrested later by Brooklyn police.

Fred Duffin, 1300 Madison Avenue, reported to Madison police Monday that \$249 cash was removed from a money bag which he had placed on a dresser in his apartment during the weekend. He said he did not know when the money was taken and that he discovered the theft only when he picked up the bag.

## Squeeze play edges South; baseball doubleheaders next

Granite City High School South was "squeezed" out of a potential ninth victory yesterday afternoon at Belleville East High School, losing 2-1.

Coach Conrad Champion's highly-regarded Warriors now are 8-2 for the season as they embarked on three straight doubleheaders in what is predicted to be almost ideal weather.

South is hosting Collinsville today for two games, the twinnbill beginning at 2 p.m.

On Friday, it will be the Warriors vs. Lee's Summit of Kansas City, Mo., at 2 p.m. on the South diamond.

Then, the Warriors will host Kansas City's Hickman Mills for a twinnbill at 11 a.m. Saturday.

Meanwhile, GCHS North will host Hickman Mills for two at 2 p.m. Friday and will entertain Lee's Summit at 11 Saturday.

At Belleville on Wednesday, Champion's would-be champions fell behind 1-0 in the first but tied the score in the second inning.

Paul Evans walked and was forced at second base as Mike Clark reached first base on a fielder's choice ground ball. John Lakin then doubled to centerfield to drive in Clark.

Pitcher Evans was effective although suffering his first loss against four victories.

Evans limited the Lancers to four hits and struck out six while issuing no walks.

East fielded without error but the Warriors had an off-day miscues, committing three errors.

Lakin's timely double and Tom Hennrich's two hits were the entire South offense in the game.

**WORLD RECORD HOLDER.** Granite Cityan Richard "Rick" Rose has been breaking running records most of his athletic career, and will attempt next month to set a second world mark. He seeks to snap a non-stop record of 131 1/4 miles in 23 hours and 27 minutes, set last year in England. Rose is shown with some of his most treasured trophies, received for his prowess in the sport.

(Press-Record Photo)

## Rose to seek world speed, endurance mark in GC run

Since the sixth grade at Mitchell Grade School, Richard "Rick" Rose has been leaving a trail of record-breaking runs in Quad-City school track record books.

Now, at the age of 24, the thin but strong athlete seeks once again to join worldwide athletes who have imprinted their names in history with time-shattering runs.

Rose will attempt next month, on GCHS South's track, to snap a non-stop run of 131 1/4 miles in 23 hours and 27 minutes set last year by England's T. Melford.

His eagerness to prevail may serve a dual goal in his life. "I had a brush with the law last year," Rose comments. "I've learned a lesson the hard way, and not it's my duty to re-establish myself as a member of the community."

He began establishing himself as an athlete while a sixth grade student at Mitchell, taking top honors in a 600-yard running event during an "all-sports day" there.

Continuing his young sports career in the seventh grade at Prather Junior High, he participated in 800-yard events, placing fourth in the annual Madison County Junior High Conference meet.

As a ninth grader at Coolidge Junior High, Rose set his sights on breaking the school's mile run mark of 5:19.9.

After two unsuccessful attempts, he turned in a time of 5:16 and later broke his own record seven different times. His last mark of 5:08 stood for three years.

During his sophomore and junior years at Granite City Community High School, he topped previous times in two-mile running events, and was a member of the 1970 Warrior track team which left its name in the school record book upon setting new times in mile and half-mile relays and the two-mile run.

Recalling such names as Dan Burris, Mike Allen, Howard "Howie" Bryant, Kent Elliff, Jim McDuffy and Dwayne Terry, Rose believes the 1970s success has been an attraction to the sport for many area athletes.

Rose was married while a junior in high school. He missed more than half of the scheduled track and cross-country meets, but kept in shape to place first in Southwestern Conference cross-country competition, second in a district meet, first in

the sectional and 70th in the state finals.

He resumed his career while in basic training with the U.S. Army at Fort Leonard Wood, Mo., setting a new record of 4:58.9 for a mile run while wearing combat boots.

Upon returning to this area, he initiated the annual Pay Rosworth Memorial run in 1975, with donations received presented to the Madison County Cancer Society. Cancer had taken the life of his friend, Mrs. Rosworth.

The first "run for cancer" by Rose saw him going up and down the streets of Madison for 44 1/2 miles in 80 degree weather. Last year, he extended his run to 51 miles.

Later in 1976, he made his first world-record-breaking run, topping an achievement held by a South African, by striding 100 miles — with intermittent 15-minute breaks — in 11 hours, 27 minutes and 58 seconds.

"Only my actual running time counted," he relates. "This year's attempt will be no-stop."

Dedicating next month's run to his mother, Mrs. Loretta Miller, Rose practices several hours a day, during which time he consumes a banana and salt tablets to maintain his strength.

"If I make it this time," he adds, "maybe I'll take a crack at the mile record."

An athlete named Walker of New Zealand is the current recordholder, having run a mile in 3:49.6.

### Girls' softball meeting slated

An organizational meeting of the Granite City Park District's girls' slow-pitch softball league will be held tonight in the Nameki Recreation Center, Ames and Franklin avenues, at 7:30.

Managers representing teams which participated in league competition last year are to attend to register those teams in either Petite or Chic divisions of the program.

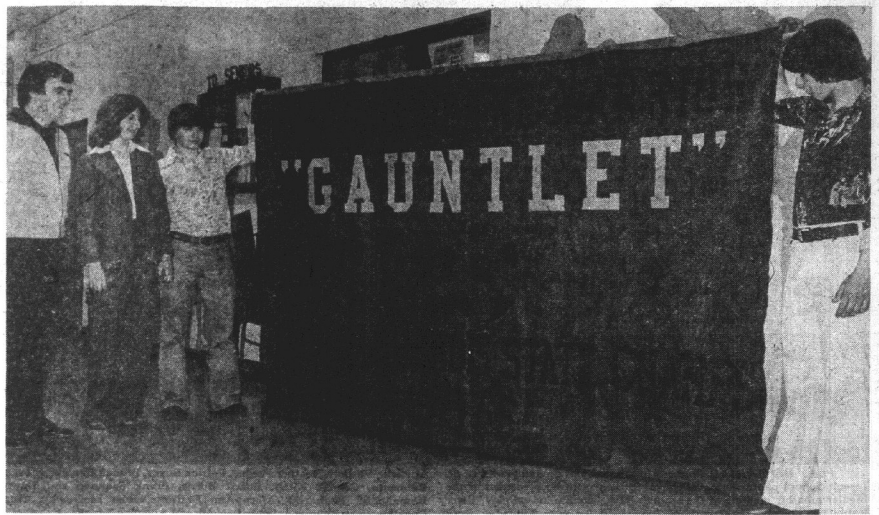

Teams are limited to girls who will be nine and 10 years old during the current calendar year, and Chic teams are restricted to girls who will be 11 and 12.

Each team is to submit a \$40 registration fee and each player will be charged \$2 for insurance purposes. Nonresident team members also must submit a non-resident fee of \$7.50 each.

### School track

TODAY, April 7  
GCHS North, GCHS South at Belleville East Mineral area meet 1 p.m.

MONDAY, April 11  
Columbia, Alton Marquette at Madison High 4 p.m.

**CHAMPIONSHIP RECOGNITION** is given the Granite City High School South Warrior soccer team on its 1976 state soccer title with this 12x6-foot banner presented to the school by the Student Council. The banner will be exhibited in the school cafeteria, and provisions have been made for it to be displayed at the soccer field for home games. The word "gauntlet" refers to the American Indians' traditional punishment of forcing a person to run between two facing lines of warriors, each warrior

armed with sticks and clubs which were used to beat the person. The Warriors, with a season record of 26 wins, one loss and one tie, have lost only two times while playing on the Warrior field in the past four years. Viewing the banner are (from left) Head Soccer Coach Gene Baker, Lynn Diak, representing the Student Council, and two of the team's three captains, Rick Becherer and Rick Fernandez.

RANDALL JONES

## Jones, Davis picked for state 'stars' game

The Illinois Basketball Coaches Association this week announced its four 12-player Class A and AA squads for the third annual IBCA all-star games. Included are Madison's Randall Jones, 6-5 in height, and Rodney Davis, 6-3.

The games will be played Saturday, July 9, at Horton Field House on the Illinois State University campus, Normal-Bloomington.

Although only graduating seniors are eligible to play, six of the first team all-state athletes will be in the two all-star games.

The Class AA North squad is loaded with three first-team picks — Brian Altsmiller, 6-8 of Buffalo Grove, Mike Clark, 6-7 of Homewood-Flossmoor, and Ed Johnson, 6-7 of Chicago Westinghouse.

There are also three first team all-stars in the Class A game, with two on the South (Mike Duff, 6-7, Eldorado, and Jones of Madison) and one on the North (Chuck Turk, 6-1, Kaneland). Trojans Davis and Jones will play for the South in

the Class A (750 enrollment and smaller schools) contest.

State Class AA champion Peoria Central is represented by Ernie Banks, 6-6 forward on the South team. The state's Class A champ, Madison, has the distinction of placing two players on the other South squad.

Players were nominated from 17 legislative districts in the IBCA, with final selections made by committees of IBCA board members, at-large coaches and the news media.

The South has won both previous Class A all-star games, 83-78 in 1975 and 82-81 in 1976.

In Class AA, the North won 99-90 in 1975 but the South turned the tables to win 96-82 in 1976.

## Channel 9 to feature soccer

Professional soccer matches from Germany and a "soccer tip of the week" by John Sewell, coach of the soccer Stars, will be featured on "Soccer," Sundays at 11 a.m. beginning this week and Saturdays at 5:30 p.m. starting April 9 on Channel 9.

The matches, by teams in the West German National League, were played during the 1975-76 season. The first match pits MSV Duisburg, which has never won a major German title in its 75-year history, against Hertha BSC Berlin, one of the oldest clubs in Germany.

Following the match, Stars' coach Sewell will wrap up the game, review the standing of the soccer Stars, and give a "tip of the week."

The West German National League was formed in 1963 by the German Football Association, creating a first division in which the top teams in Germany would compete with one another. Previously, these top teams had been scattered among five original

leagues.

The league consists of 18 teams, and with all the top teams in this league, an improvement in the standard of German soccer has resulted.

One of the teams, Bayern Munich, won the European Cup in 1967 and the Europeans' Championship Cup in 1974, 1975 and 1976. This team and Borussia Monchengladbach have dominated German championships and, since 1965, both

have won the German title four times. In the 1975-76 season, just under 17 million fans attended the matches of the 18 member clubs.

### ATTENTION VOTERS MADISON SCHOOL DISTRICT No. 12

Saturday, April 9, when the polls open at Noon you will be electing three (3) members to serve on the Board of Education. This board SPENDS OVER HALF of your tax dollar. The THREE INCUMBENTS, FRANK EAVES; ELMERS JOHNSON and RICHARD ZEISSET have served with distinction in the past. They have proven their ability and gave very much time to working on the many problems of the district.

It takes unpopular decisions to keep the district SOLVENT and running in the black ink. It is easy to say YES to everyone and every program and quickly spend the TAXPAYERS' money, run into DEFICIT and red ink and tell the public to pay more TAXES. THIS BOARD HAS NOT DONE THAT. Remember, we are building a new middle school with NO new taxes. We are constantly working on all our problems and will continue to do so. KEEP A GOOD SCHOOL BOARD. Do NOT listen to the politicians who would tamper with the success of this GOOD TEAM.

## K of C spelling contest April 24

All parochial grade schools in the Quad-City area will compete in the annual Knights of Columbus spelling bee to be held at the Knights of Columbus Home on Sunday, April 24 at 1:30 p.m.

James "Babe" Haack, chairman of the committee, said the competition will involve seventh and eighth grade students from St. Mark's in Venice, St. Mary's of Madison and St. Joseph's, Sacred Heart, St. Elizabeth's and St. Margaret Mary of Granite City. There will be two finalists from each school competing in the finals at the K of C Home.

Two finalists, the winner and

runnerup, will advance to a Madison County contest to be held in Collinsville on Friday, April 29, at 8 p.m. in the St. Peter & Paul church center on Vandalia Street (Route 150).

There will be prizes for the two finalists at the local contest, and a traveling trophy will go to the school of the winner until next year's contest.

After three wins, this trophy will become the permanent property of the victorious school. Sacred Heart now has two wins.

Light refreshments will be served to the contestants, their tutors, parents, friends and all who attend. The public is being invited, Haack said.

## Venice lets contract for bridge work

The Venice City Council in a special meeting Tuesday night awarded a contract to G. H. Sternberg & Co. of Granite City for reconstruction of the east approach of the city-owned McKinley Bridge.

The contract was awarded on a bid of \$475,225, the lowest of four bid offers received by city officials during a bid opening Monday. The contract award had the endorsement of Hardesty & Hanover, New York engineering firm which reviewed the bridge bondholders.

Other bids were submitted by J. S. Alberici, St. Louis, \$480,288; St. Louis Bridge Co., \$510,040; and H. H. Hall Construction Co., East St. Louis, \$541,297.

Venice will finance the work with a \$360,000 grant allotted under the Public Works Act late last year.

The work will involve construction of the substructure of the east approach and replacement of the bridge deck. Traffic will continue over the bridge during the work, but will be reduced to two lanes.

### Easter egg

(Continued from Page 1)  
park district official noted. The Easter egg hunt schedule is:  
First grade children, 9 a.m. Saturday; kindergarten pupils, 10:15 a.m.; and pre-schoolers at 11 a.m.

## Children's egg hunt in Downtown GC Saturday

Children between the ages of 3 and 10 years are invited to hunt for eggs in Civic Park, located in the 1300 block of Niedringhaus Avenue, at 1 p.m. Sunday.

The Easter egg hunt is being sponsored by the Downtown Granite City Merchants Association, which is offering prizes to the "lucky" boys and girls finding specifically marked eggs.

Children must be accompanied by an adult to the hunt site, but the adult is not allowed to enter the grassy area with a youngster, the sponsors said.

The youthful hunters will be divided into two age groups: children who are 3 to 6 years and those who are 7 to 10 years old. Adults and children are cautioned not to enter that area

of the park where flowers are planted. Eggs will be hidden in grassy areas only, the sponsors stressed.

Each child must provide his or her own container in which to collect the eggs.

First, second and third place prizes will be given to children in both age groups. A "grand" prize will be awarded to the youngster finding the most eggs, also in both groups.

Certain eggs have been specially marked to denote the finder will receive an additional prize, the association spokesman said.

Special choral selections by the Teen and Church choirs will highlight Easter services on Sunday at the First United Pentecostal Church, 2450 Pontoon Road.

The Rev. Kenneth V. Reeves, pastor, who will speak at both the morning and early evening worship services, has invited the public to attend.

Sunday school classes will start at 9:30 a.m. The Easter morning worship service, beginning at 10:30, will feature the Teen Choir under the direction of Miss Kathy Hudson.

Added to the music of the youthful singing group will be the sound of an arklung, a musical instrument from Indonesia, the pastor said.

Among the selections to be sung by the Teen Choir are: "Because Christ is Alive"; "I Live"; "The Blood Will Never Lose Its Power"; "It Is Finished"; "Going Home"; "What If This Would Be the Last Day"; and "Jesus Comes."

Directed by Mrs. Rosalie Hudson, the Church Choir will sing at the 6 o'clock evening service also using the new arklung instrument.

Their numbers will include:

"Who Is the King of Glory"; "There's Something Different About Him"; "The Holy City"; "They Call It, Calvary"; "Someone Cared"; "Lift Up Your Heads"; "The Comforter"; "He Came, He'll Come Again"; "Soon and Very Soon"; and "My House Is Full."

## Nameoki Methodist Holy Week services

A communion service will take place at 7 tonight, Maundy Thursday, at the Nameoki United Methodist Church, Pontoon Road and Primrose Avenue.

In the service, the relationship between the Passover meal and the Lord's Supper will be explored. Insights into this matter gained from the Rev. William D. Fester's recent trip to the Holy Land will be shared.

A menorah (a candelabra) used in Jewish worship, a Passover plate and an olive-wood chalice brought back from Jerusalem will be used in the service.

St. Luke 22:16 is the Scriptural text on which the service entitled, "In Full Meaning," is based. The Chancel Choir will sing the anthem, "I Wonder Why," accompanied by David Long and directed by Mrs. William Fester.

An Easter Sunrise Service will begin at 6 a.m. Sunday at the church in recognition of the discovery of the resurrection of Christ at dawn on the first day of the week.

Members of the church will present the chancel drama, "He Lived, He Lives, I Live," by E. Blake Moore. The cast includes Mildred Clements, Barbara Bryan, Pam Tester, Penny Kessler, Carrie Hornbuckle, Dan Berniax, and Ray Burton. Jim Rucker is the director.

Following the service, a time for fellowship is planned. Coffee and doughnuts will be served.

Both the Crusader Junior Choir and the Chancel Choir will sing for the 10:45 a.m. worship service on Easter Sunday. "Allelu! The Lord is Risen!" is the offertory anthem to be presented by the Crusaders under the direction of Mrs. Fester. The anthem to be sung by the Chancel Choir is "The Day of Resurrection," by Thomas Matthews.

Mrs. Woodrow Williams is the director and David Long the accompanist.

The pastor's sermon, based on St. Matthew 27 and 28, takes a look at the resurrection from the perspective of Jesus' enemies. "As His enemies explained it," is the title.

Church school classes take place each Sunday from 9:30 to 10:30 a.m. with classes for all ages.

A membership inquiry class for adults and older youths also is in session during the church school hour under the pastor's leadership.

This class deals with a general overview of the Christian faith and includes Bible study, Christian doctrine and philosophy, church history, and personal faith.

Rev. Fester, pastor, noted everyone is invited to attend the services and celebrate Easter with the congregation.

## London lecturer is church speaker here

Moral stability must be strengthened and restored, Geth A. Plimmer, a Christian Science lecturer from London, England, told an audience last week in the Christian Science

Church, 2560 Delmar Ave. Plimmer spoke at the invitation of the First Church of Christ, Scientist. He was introduced by Mrs. Janet James, lecture committee chairman of

the church.

"A time of moral crisis," he said, "isn't a time for pointing accusing fingers at anyone so much as a time for prayer. And then, in the light of this prayer, for extending outstretched hands — for sharing the spiritual truths and moral perceptions that will support whatever is progressive in any situation."

The speaker urged his audience to rely on scientific prayer in dealing with the moral sickness which he said is so prevalent in today's permissive society and called for the healing of all forms of moral instability, "including racial oppression."

"Millions throughout the world today," he said, "belong to groups or races that have for

centuries been oppressed or underprivileged; these millions are now crying out to receive all they are entitled to as man."

Drawing on an analogy from the classroom, he said: "When you write three three on the blackboard, it's the thinnest of those three three that counts, not the color of the chalk. So with man: it's his divineness

that counts, not the color of his skin."

He held that, far from being restrictive, the moral and spiritual laws taught by Christ Jesus bring freedom.

"The spirituality," he explained, "which gives your morality dominion over materiality is everyone's eternal birthright. We claim it by scientific prayer."

**SINCE NERO'S TIME... THEY ALL SCREAM FOR "ICE CREAM!"**

When a shipment of mountain snow that was to be used for his royal ice cream arrived in a state of slush Emperor Nero executed the general that was in charge.  
 When Jacob Fussell of Baltimore introduced ice cream to America in 1851 he little realized that we would be eating over three million quarts annually.  
 By the way, have you tried our own Hillcrest Ice Cream? It's a quick dessert for any occasion and you will find it featured in our Ad. this week.

Games were directed by the hostesses and prizes awarded to Miss Paula Bills, Mrs. James Loy, Mrs. Preston Wallace and Mrs. Glenn Wolfe.

Others attending were Mesdames Ray Ashcraft, Lee Reid, Harold Briggs, Lee Davis, Robert Rouland, Delton Groothuis, Blanche Lane, Ray Potillo, William Rankin, James Williams, Gerald Bushue and Miss Lisa Groothuis.

## No college board ballot opposition

There is no ballot opposition Saturday for two candidates seeking election to the board of Belleville Area College Community College District 522. Voting will take place at school district polling places.

Those on the ballot for two three-year terms are an incumbent member, Curt E. Eckert, of Belleville, and Elizabeth Jenner of Mascoutah. Eckert is chairman of the BAC board.

The position sought by the Mascoutah resident currently is filled by Mrs. Martha Sauer. She is retiring from the college board.

In addition to the two whose names will appear on the ballot, Miss Mary Agnes Kewley, 20, a BAC student, is a write-in candidate. She is running to give voters a choice, she comments. A speech and business student, she chairs the

MARION E. GRAY, Venice Township assessor, was re-elected to that office on Tuesday.

MRS. MARGARET REIDELBERGER, Venice Township assessor. She was re-elected in Tuesday's voting.

JOE WILLIE ROBERTS, elected Tuesday as Venice Township highway commissioner, a post he has held by appointment.

### Fire in skillet ignites cabinets

A skillet of grease caught fire and ignited kitchen cabinets at the home of John Carter, 2609 Nameoki Drive, last week, resulting in a loss of \$450. Firefighters said the blaze was out upon their arrival, but CO2 was used on the exhaust fan above the stove.

The Quad-City area became part of the district in the mid-1970s at the urging of local residents and with the approval of the Illinois Community College Board.

Before creation of the present state community college program, the Belleville facility operated for several decades as Belleville Junior College in association with high schools in that area.

The BAC board has scheduled a special meeting for 8 p.m. Wednesday, April 13, to canvas Saturday's election returns and choose board officers for the 1977-78 year.

Chairman Eckert has commented, "Viewing our college from the eyes of a citizen of the district, not an employee of the college, the community college

trustee is in a unique position among the college's immediate family to appreciate it for some of its more basic attributes.

"These attributes may be lost to the eye of the specialist who comes to the college daily as an employee. We frequently recognize issues which may be passed over by the professional in the pursuit of issues in his area of specialization.

"We are constantly reminded by those taxpayers who do not take direct advantage of their

college that we should keep a light train on expenses. They say that efficiency is the primary goal.

"I feel that efficiency and effectiveness must go hand in hand, since there may come a point at which increased efficiency is a detriment to quality of instruction.

"Besides efficiency, the Board of Trustees faces the issue of responsiveness to the electorate. By definition, the board must be responsive to the

wishes of the community. "A local board for each community college district provides a unique democratic institution that is self-correcting and self-renewing, combining opportunity and choice for every citizen within the district.

"It is our duty to assure that BAC reflects the needs of the region it serves," Eckert concludes.

BAC provides a wide variety of courses taught within the

Quad-City area. Illinois public community colleges enroll 48 per cent of the post-secondary head-count students and 36 per cent of the full-time equivalent students enrolled in credit courses, compared to 30 and 38 per cent at public colleges and universities in the state.

BAC yearly operating costs total \$5,702,391 for education, \$288,847 for the building fund and \$250,006 for site and construction.

## Gen. Goodpaster heads U.S. Military Academy

By VALERIE EVENDEN  
Press-Record Staff Writer  
General Andrew J. Goodpaster, U.S. Army, a native of Granite City and a former NATO supreme commander, has been recalled from retirement to head the U.S. Military Academy at West Point, N.Y.

Secretary of Defense Harold Brown said Monday that Gen. Goodpaster, 62, would replace Lt. Gen. Sidney B. Berry, whose three-year term as West Point superintendent expires in June. A graduate of Granite City High School, Princeton University and the West Point Academy, Gen. Goodpaster is the first full general to hold the post of superintendent.

The selection of a retired general officer also is unprecedented.

The defense secretary said that Gen. Goodpaster agreed to return to active duty as a three-star general — the rank the superintendent's post carries — but that he would revert back to four-star status when he returns to the retirement ranks.

"General Goodpaster promises the unique blend of military and educational background and experience deemed necessary for the superintendency and reflects the best qualified individual available to the Army at this time," Secretary Brown stated.

The announcement did not refer to the recent cheating scandal at the U.S. Military Academy, which implicated 176 members of this year's senior class and resulted in the dismissal of 130 cadets for violating the academy's honor code.

It is believed, however, that Gen. Goodpaster's appointment as West Point superintendent is a move to refurbish the cheating-tainted image of the academy.

Secretary Brown's announcement said the Army decided to break precedent in selecting a retired general because Gen. Goodpaster best met the recommendation of the

Borman Commission that the choice of superintendent be based upon "interest in education and a demonstrated ability to provide educational and military leadership."

Lt. Gen. Berry, who will remain in the superintendent's job until June, has been regarded as one of the Army's outstanding generals.

He was not singled out for blame for his handling of the cheating scandal by the blue ribbon commission, headed by former astronaut Frank Borman, which investigated it.

Gen. Goodpaster's retirement in December 1974 previously, ended a distinguished 40-year career in the U.S. Army, climaxed by the post of supreme commander of all North Atlantic Treaty Organization (NATO) forces in Europe.

He helped to organize the Treaty Organization about 27 years ago and, during the early 1960's, became close to General Dwight D. Eisenhower. Gen. Goodpaster left NATO to become staff secretary to Eisenhower when the general was elected president.

Gen. Goodpaster served briefly in the same capacity to President John F. Kennedy and was recalled from Vietnam in 1968 by President Richard M. Nixon as his advisor on National Security Council procedures and military policy questions.

After graduation from Granite City High School, Gen. Goodpaster attended McKendree College in Lebanon from 1931 to 1933 and was graduated from West Point in 1939.

He also holds a master's degree in engineering and a

doctor's degree in international relations from Princeton University.

The four-star general was commander of the National War College in 1967 and 1968 and served briefly as deputy commander of U.S. forces in Vietnam in 1968, prior to his appointment as NATO and U.S. commander in Europe on March 12, 1969.

After retiring as the supreme allied commander in Europe, Gen. Goodpaster was named as a senior fellow of the Smithsonian Institution's Woodrow Wilson International Center for Scholars.

He holds the Silver Star, Distinguished Service Cross and Legion of Merit with Oak Leaf Cluster, among other decorations. He received the Distinguished Service medals of the Air Force, the Navy and the Army during his retirement ceremonies at Ft. Myers, Va.

Earlier in his military career, Gen. Goodpaster served with the U.S. Army Corps of Engineers in Panama and in North Africa and Italy during World War II.

He also held high ranking staff positions in Washington, D.C., and served on the staff of the Joint Chiefs of Staff.

Gen. Goodpaster's integrity and outstanding service to this country have been commended by four U.S. presidents, including former President Gerald Ford, who cited the general for his "exemplary leadership and managerial skills."

"Our national security is stronger for your efforts," the former president said to Gen. Goodpaster upon his retirement.

## Off-Campus council to meet Tuesday

The Career Advisory Council of Granite City School District's Off-Campus Education Program will hold its quarterly dinner meeting at 6:15 p.m. Tuesday, April 12, at Charlie's Restaurant.

Robert Jones, council president, said among the topics to be discussed are final plans for the third annual "Off-Campus" banquet and progress of the Health Occupations program.

Counselors representing the two Granite City high schools have been invited to attend the meeting, according to Don Shaffner, off-campus coordinator.

The banquet sponsored by the council affords an opportunity to recognize students participating in the program and their employers, Jones said. The event will take place in May.

Council members unable to attend Tuesday's "dutch treat" dinner are being asked to call Shaffner's office, at 877-1512, Extension 44 or 64.

## Gloria Steinem at SIUE tonight

Feminist Gloria Steinem, founder of the Women's Political Caucus and co-founder of the National Organization for Women, will speak at 7:30 p.m. today in the Meridian Ballroom at Southern Illinois University at Edwardsville.

All women are invited to attend the event, according to officers of the Metro-East NOW Chapter, sponsor of the program.

Tickets for Miss Steinem's appearance tonight will be available at the door and cost \$1.50 for students and \$3 for non-students.

Myths relating to the Equal Rights Amendment and other aspects of the ERA bill will be the principal topic of Miss Steinem, who has been an outspoken advocate of women's rights for many years.

She also will respond to questions from the audience. A "Rape Speakout" panel program is being conducted this afternoon at SIUE and will be continued Friday during workshops.

Friday's session will deal with medical and legal points connected with rape cases, among other problems.

### St. John Lutheran schedules services

The anniversary of the institution of the Sacrament of Holy Communion will be observed at Maundy Thursday services at 7 p.m. today at St. John Lutheran Church, St. Clair Avenue at Dale.

Young people confirmed on Palm Sunday will experience their first communion, robed in white.

All communicant members of the congregation are invited. A color filmstrip on the meaning of the Holy Supper will be shown. The pastor, the Rev. Samuel Boda, will deliver the Communion message. At the organ will be Miss Ellen Boda, senior student at Concordia Teachers College, River-Forest, Ill.

Good Friday will be observed with the traditional "tenebrae" service at 7 p.m. Meditations on the Seven Last Words of our Lord from the Cross will be featured; Rev. Boda said. A color filmstrip depicting the Lord's holy sacrifice on the cross will be shown. Seven candles will be extinguished during the service, symbolizing the seven last words spoken before the Lord's death.

Easter morning will begin at Wilson Park's ice skating pavilion for the Easter Sunrise Service, sponsored by the Lutheran Bureau, of which the congregation is a member.

This year's half-hour service will begin at 6 a.m. Delivering the Easter message will be the Rev. J. Nichols, of St. Louis, with Pastor Arvin Twietmeyer of Concordia, serving as liturgist.

Trumpeters from St. John Lutheran will make up the brass ensemble that will set the Easter mood with rousing fanfares, Rev. Boda noted. They also will accompany the singing. Organizer and leader of the group is John T. Severine Sr. Members of the group are Greg Thebeau, John T. Severine Jr., and Luther S. Boda. Coffee and donuts will be served following the service.

Festival worship services will be held at St. John at 10 a.m., with a specialty Easter-oriented Sunday School session at 9 a.m., under the leadership of co-superintendents O. T. Pether and Larry Miskell. Organist will again be Miss Boda.

The annual Easter egg hunt will be held on the church lawn Saturday at 1 p.m. The youth of the church will sponsor the event, led by Miss Patty Bates, president, and Michael and Donna Johnson, counselors. In case of inclement weather, the eggs will be distributed to the children in the church fellowship hall. Children of the Sunday School, ages 3-10 are invited.

# Anti-crime plan includes prompt trials and longer prison sentences

Governor James R. Thompson unveiled a "get tough on crime" legislative program Tuesday, designed to "add speed to the trial process and keep dangerous criminals off the streets longer," he explained.

"This fulfills the essential promise that I made to the people of Illinois during my campaign," Thompson said. "We are going to get tough on crime."

In disclosing the seven-bill legislative program, Gov. Thompson said several of the bills were designed to make punishment a deterrent to

criminals and increase their chances of going to jail.

One bill creates a new class of felonies — Class X — that provides stiffer penalties for committing heinous crimes and also calls for more severe penalties for habitual offenders.

"Sooner or later we have to tell criminals that we are not going to fool around with them any longer," Thompson said. "I believe this legislative package takes a big step in that direction."

Other bills in the package deal with plea bargaining, bail, an omnibus hearing system, restricted continuance

procedures, the state's right to call for substitution of judges and creation of a new statewide Defender General's office.

In an effort to minimize plea-bargaining practices, Thompson proposed that prosecutors who reduce initial charges be mandated to file formal explanations of their actions as part of the public record.

The governor emphasized that he is proposing "tough penalties" on those who have dangerous weapons in their possession while committing felonies.

He said statistics regularly disclose that crimes committed with weapons "are on the rise and must be curtailed."

Under the proposed legislation, offenders convicted of Class X felonies would be sentenced to mandatory minimum terms ranging from six years in prison without parole to life in prison without parole.

Class X crimes would include committing:

- A felony while possessing a dangerous weapon.
- Rape.
- Kidnaping for ransom.
- Arson.
- Indecent liberties with a child.
- Transactions involving hard drugs.

Under the proposed legislation, those convicted of murder would face a mandatory minimum sentence of 14 years in prison without parole.

Any person convicted of three Class X felonies on separate occasions after the legislation became law would be considered an habitual offender and sentenced to life imprisonment.

Those convicted of three felonies on separate occasions would be subject to Class X sentencing upon their third conviction.

The bill would also prohibit furloughs for Class X offenders until 60 days before scheduled

release from prison, and the Parole and Pardon Board would have the authority to determine the release date.

The Class X felony bill also would create a 12-member Criminal Sentencing Commission to weigh the fiscal and prison population impact of the Class X felony category, to suggest additions to the Class X category, to develop standardized sentencing guidelines and to propose an implementation plan by March 1, 1979.

The commission would be served by the director, with support services provided by the DOC staff.

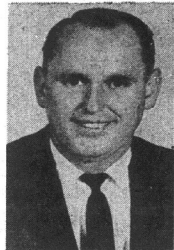

The governor would appoint three members to the commission. Two would be named by the Senate president from the Senate with two from the same political party, three by the House Speaker with two from the same political party, and three by the State Supreme Court from the ranks of judges — who preside over criminal cases.

Included in the Thompson plan to speed up the process of bringing accused persons to trial are bills to:

1. Create a Defender General's office, effective July 1, 1979, replacing present county public defender and appellate defender provisions, aimed at better coordination of legal representation for persons who cannot afford to hire counsel.
2. The Defender General, a full-time lawyer, would be appointed by the Illinois Supreme Court for a four-year term at a \$40,000 yearly salary.
3. A Defender General's office would be established in each judicial district, with all expenses of the office to be paid by the state, estimated at between \$3 million and \$5 million annually.
4. Establish an omnibus hearing system for all pretrial motions, requiring a conference by the prosecutor and defense counsel within 15 calendar days

## Power outage at GC Steel causes layoffs for 370

Granite City Steel has lost from 20 to 25 per cent of its anticipated April steel shipments as a result of an electrical accident during the weekend, it was reported Wednesday.

An electrical "flashover" that occurred Saturday morning burned out cables and transformers that caused a shutdown of the hot strip, blooming mill, cold strip and cold rolled finishing.

Those areas still were shut down today. Approximately 370 employees have been on temporary layoffs since the accident occurred, a plant spokesman told the Press-Record yesterday.

Repairs, involving the replacement of electrical cables and a number of transformers, are under way.

The electrical burnout occurred as an electrical repair crew attempted to pull an airbreak switch.

The spokesman said that some workers are expected to be recalled to their regular shifts beginning tonight, as repairs progress, but that production is not expected to return to normal until the middle of next week.

## New members of Bi-State to attend first meeting

Three newly-appointed Illinois members of the Bi-State Development Agency are scheduled to attend their first meeting in the agency offices at St. Louis at 10 a.m. Friday.

The new members, named a week ago by Gov. James R. Thompson, include E. Lucian DeShong of Godfrey, who replaces Mayor Mike Sasyk of Madison; Roy J. May of Waterloo, replacing John E. Shuff Jr., formerly of Belleville; and James S. Nations, Fairview Heights, replacing Roger Plummer of Godfrey.

The Bi-State Development Agency which operates Bi-State Transit System buses, the Gateway Arch transportation

system and Bi-State Parks Airport at Cahokia, is administered by a board of commissioners made up of five Illinois members and five Missouri members.

The board members are appointed by the governors of Missouri and Illinois to staggered terms of five years.

In addition to the new members named by Gov. Thompson, other Illinois commissioners include Granite City Mayor Paul Schuler and Carmen Moody of East St. Louis.

Missouri members are John Brawley of Ferguson, Mo., and William Daubitz, Jacquelyn Phillips, Macier Shepard and Gerald Rimmel, all of St. Louis.

## Madison revises mayor's, treasurer's pay schedule

Two ordinances increasing salaries of the mayor's office and the city treasurer's post at Madison were enacted by the Madison City Council Tuesday night.

While one of the ordinances raises the salary of the mayor's office, it embodies other revisions which leaves the mayor's income unchanged from its present status.

The mayor now receives \$750 per month and a \$400 monthly expense account, a total of \$1,150. Under the ordinance-approved Tuesday night, the mayor, after new terms begin May 1, will receive \$950 per month and another \$300 per

month as city liquor control commissioner, for a total of \$1,150 per month.

The bill eliminates the monthly expense fund.

The other ordinance raises the salary of the city treasurer from its present \$2,100 per year to \$2,000. Salaries of elected officials may not be changed during a term of office.

The change in the treasurer's salary also will be effective May 1.

In other business during a regular council session, the aldermen discussed plans to raze several deteriorated homes.

## New leader of student activities

He looks so young, he might be mistaken for a student rather than the new director of the Student Activities Office at Southern Illinois University at Edwardsville. But Franklin John Simpson Jr., with his three academic degrees, including a Ph.D. in higher education administration from SIU at Carbondale — quickly distinguishes himself as a person who knows about helping and guiding students.

Guidance will be the key word as Simpson steps into a directorship that has been vacant for seven months at the local university. As director of student activities, subject to ratification by the SIU Board of Trustees, Simpson will assume duties including advising student organizations, being the consultant and fiscal officer to Student Government and its budget committee, and chairing the Cultural Arts Council.

Before coming to SIUE, Simpson was assistant dean of students at the University of Missouri-Kansas City. Previous positions at UM-KC include assistant to the dean of Student Affairs, staff assistant with Student Activities and member of the staff of the department of Black American studies.

Simpson said he admired how well the present staff at the SIUE Student Activities Office functioned during the period without a director.

"Since the job was open for such a long time, most of the responsibilities were delegated around the office," he said. "Some were even delegated outside the office to other campus departments."

"There was a lot of paper

work that had stored up, and everyone in the office was overworked to the point that interaction with student groups was limited," Simpson feels that re-establishing close advisory relationships with student groups will be his primary concern, and he said he is looking forward to working closely with the students.

Since SIUE is primarily a commuter school, Simpson admitted that this presents unique problems for an active-student program. But since he formerly was assistant dean of students at UM-KC, also a commuter school, the problems won't be new to him.

"The University of Missouri at Kansas City was also a commuter campus, and enrollment was about the same as SIUE — 12,000 to 14,000. The major differences between the two is that UM-KC is located in Kansas City. SIUE is mostly a rural setting."

"With a college in the heart of a city, there is a lot of competition for student activities with the different events within close proximity of the campus," Simpson said.

"At 5 p.m., commuter campuses empty out. The key for a good, active program is planning a quality program to get people back on campus or to entice them to stay past 5."

"But I will never measure the quality of the student program by attendance figures."

"Some of our programs will be geared to smaller crowds," he said. "We have the responsibility to provide a wide variety of events to provide growth outside the academic area as part of the student

college experience.

"Programs will include large productions, but we will also emphasize small workshops and seminars, combining our department more closely with the academic areas."

"A good balance of programs," Simpson feels, "will involve students as well as the communities that the university serves. Yet, the university has a responsibility to reflect the community while still exposing students to controversial issues, persons and groups."

"The key is balance. I don't want to see programs that are totally for either the community or dealing with controversial areas."

"We have to prepare students and increase their awareness level to other ideas outside the immediate vicinity. A lot has to do with the students themselves — what they are interested in."

"By having input in what is interesting to students and then balancing that with community interests, we can have a good student activities program."

## Nancy Mitzel marries Billie E. Tindall Jr.

Miss Nancy Jo Ann Mitzel, a daughter of Mr. and Mrs. Joe A. Mitzel, 2209 Delmar Ave., and Billie E. Tindall Jr., son of Mr. and Mrs. Bill Tindall, 64 University Drive, were united in marriage on March 5 at St. Peter Evangelical United Church of Christ.

The double ring ceremony was performed at 7 o'clock in the evening by the Rev. Robert Kettelhut before an altar adorned with bouquets of yellow and apricot flowers intermingled with greenery.

For her wedding the bride chose an A-line designed white organza gown fashioned with a high Venice lace neckline and sheer yoke accented with a lace key-hole motif.

The long sheer sleeves were enlivened with a Chantilly and Venice lace. Matching lace appliques were scattered at random on the skirt which was encircled with a lace border and repeated on the chapel train. She wore a lace camelot headpiece to secure her fingertip veil of bridal illusion edged with tiny Venice lace. Her cascade bouquet was an arrangement of apricot and white roses with sprigs of baby's breath.

Matron of honor Mrs. Diane Ryan, a sister of the groom and bridesmaids, Miss Melodie Tindall, another sister of the groom, and Miss Jan Roth were identical apricot knit halter gowns complemented with a chiffon handkerchief style printed cape.

The groom chose Rick Ryan as his best man, Charles Jaunovich, Russell Mitzel, the bride's brother, Clay Windfield and Carl Dake completed the corps of groomsmen and ushers.

A reception was held at the American Legion Hall and the rehearsal dinner was hosted at the Luna Cafe, Mitchell.

The newly married couple are residing in Madison following a wedding trip to Tan-Tar-A Resort.

Both young people graduated from Granite City High School South. The former Miss Mitzel is employed as a legal secretary for the Igoe and Igoe Law Firm in St. Louis. The groom also attended a carpenter's apprentice school at the South High School and is presently enrolled at Belleville Area College. He is an employee of the H. H. Hall Construction Co.

## Jr. Service Clubs plan federation

The Madison Junior Service Club met last week at the Madison Recreation Center with representatives of the Granite City and Collinsville Junior Service Clubs, for the purpose of consolidating the three organizations into one federation, since the Staunton Club has announced its withdrawal from the membership.

A new slate of officers was discussed and plans finalized for the Granite City club to hold the offices of president and corresponding secretary; Madison will hold the vice-president and recording secretary offices and Collinsville is to provide a nominee for treasurer.

The Federation will hold two meetings a year, one in April for the installation of officers and another in October for afternoon workshops.

Granite City members present were Jo Ella Harris, Beverly King, Janice Staats, Flora Mae Lessing and Wilma Edgington, and from Collinsville was Leora C. Sager. Those from Madison included President Janet Shultz, Elvera Stagner, Teresa Rhoades, Joann Gushleff, Caroline Champion, Julia Voloski, Fannie Fisk and Mary Kaminski.

Reservations will be accepted by calling Mrs. Derr at 823-21 (daytime) or 877-8253 (evenings), or Mrs. Dolores Klesh at 876-1838.

## Travelers view Alaskan wildlife

A visit to the U.S. Fish and Game Preserve in Alaska, a strictly regulated facility, was described by Miss Virginia Segar, who illustrated her narrative with films she had taken there.

Miss Segar was the speaker at last week's meeting of Travelers Abroad, held at Prather Junior High School. She was introduced by Edmund Flinner.

Only 10 people are allowed to visit the preserve at one time, Miss Segar said, explaining after registering one's name on a slip of paper those permitted to enter are selected at random by a wildlife officer.

She noted that wild animals on the preserve are so well protected from "predatory man" that many brown bears return to the preserve regularly, and can be individually identified by the park rangers who give them nicknames.

Closet pictures of the bears, taken by Miss Segar using a telescopic lens, showed the animals catching salmon in the shallow rapids and devouring the fish, while swarms of seagulls gather around to eat the leftovers when he is finished.

She said the gulls swoop so close to the bears that an animal could easily strike them. This doesn't happen, she explained, as the gulls never touch the salmon until the bear is through eating, but quickly take the leftovers when he is finished.

The brown bear also consumes large quantities of berries, in addition to his fish diet, she said. In the winter, the bear goes into a deep sleep, but not into hibernation. Body temperatures are greatly lowered and the animals appear comatose in the latter condition, she explained.

Miss Segar showed pictures of wild geese, mountain goats, moose, deer, otters, marmots and vast colonies of seals, as well as a series of photos of the midnight sun, taken between 11:30 p.m. and 2:30 a.m.

Views also were seen of the Columbia Glacier and Mount McKinley, the highest peak in Alaska.

Miss Segar was a guest at the home of Joe Wallis, superintendent of the Southeast Alaskan Fish and Wildlife Hatchery, who conducted the visitors through the complicated chain of events in which the female salmon are kept warm during the winter, then killed in the spring after the eggs have been removed and fertilized.

By this process, the number of eggs which actually develop into fish is vastly increased, she said.

Wallis is the brother of Miss Geneva Wallis, a member of Travelers Abroad.

Guests at the meeting were Miss Betty Tuwensen, Mrs. Thelma Murday and Walter Chatman.

made in Bethlehem out of olive wood and they will keep the cup as a souvenir from the Holy Land, the minister added.

## Local business women aid new BPW club start

Actively employed women from the Wood River area, who are interested in forming a Business and Professional Women's club in that region, met last week with members of the Granite City BPW Club at the Wood River Public Library.

The benefits to be derived from chartering a new club, whether educational, service-oriented or fellowship, were described by the Granite City women.

Stressed to the prospective members were such BPW programs and involvement areas as legislation, scholarships, civic and community service, educational opportunities and providing help to young career women and high school age girls.

Each local BPW member briefly outlined her reasons for joining and supporting the programs, and the accomplishments achieved by the Granite City club were explained.

Questions were answered and the prospective members were invited to attend the annual "Public Relations" dinner, scheduled at 6:30 p.m. April 20, at Charlie's Restaurant.

A tea for the Wood River women is being arranged for Sunday, May 1, Mrs. Judith McCann, local membership chairman, reported. The time and location of the tea will be announced shortly, she said.

Also attending the meeting from here were Sylvia Wright, president of the Granite City BPW Club; and LaVelle Stephens, Pauline Weir, Lois Wetton, Ollie Derr, Lil Marzluft, Carolyn Koester, Louise Smith and Edna Kohlbrecher.

Tolliver, 51, of 1250 Klein St., is employed as a civil engineer by the U.S. Department of Housing and Urban Development.

He has been active in programs of the Quad-City special education region and has taken a leading role in efforts to balance the Venice district's income and revenue needs.

A graduate of Venice High School, he has served as a coach of St. Mark's basketball teams and has been committee chairman of Boy Scout Troop One.

He and his wife, Evelyn, have five sons and one daughter.

Tolliver has many years' experience as city engineer of Venice. He has been president of the school board continuously since the April 1974 retirement from the board of Leo A. Devinoy. The latter, a board member 27 years, had been president for six years, 1960-74.

A native of East St. Louis, Tolliver initially served on the board by appointment for a year and was elected in 1968, 1971 and 1974.

Candidates for the Venice Board of Education on Saturday include John Henry Williams, 29, of 6192 Washington.

He and his wife, Emma, have four children, John Cortez, Sheldona, Dean and Reginald. Three attend the Venice School and the other will start this fall. Williams is employed by the Metro-East Sanitary District. He has worked for the district and its predecessor for nine years as a sewage operator, holding a Class Three state certificate.

Born in Venice, he is a lifetime resident. He is a member of Operating Engineers Local 149 and Eastern Star St. Mary Chapter 41.

President of the Madison Branch of the National Association for the Advancement of Colored People, Williams is a student at Southern Illinois University at Edwardsville, majoring in human services.

He has served as deacon and Sunday school superintendent at the New Salem Baptist Church.

In the New Hope Masonic Lodge, he is a York Rite Mason and holds the office of junior warden.

Williams comments, "I would like to keep a sound and well-run district, making sure that every child will have a chance to get the best education from our school district."

"I would like to see a better relationship between the students, teachers and parents. No board members or teachers can solve students' problems without the parents."

that teachers are here to teach and the students are here to learn. The training part is the responsibility of the parents.

If all three of these parts would work together, we would have the best school district in the world."

He continues, "I would represent all three parties, but would stand up only for the right. I strongly believe in enforcing the rules and code of our school."

"I believe in letting taxpayers bring in suggestions on how to improve our district. They should be heard."

"The people who live in our school district should have first choice at any job that is open. If a person is not qualified, then we should find someone outside the district."

"If a person is good enough to work in our schools, he or she ought to be good enough to live here."

"The only thing I can promise is to treat everyone fairly and equally and to do the best I can."

exposing the young students to symphonic music, many continue an interest in it the rest of their lives, school officials said.

Mrs. Margaret Lee is chairman of the Fine Arts Committee and she and Mrs. Margaret Connoles of the Venice-Madison Fine Arts Committee through a grant from the Illinois Arts Council, a state agency.

Approximately 300 fourth graders in the Venice and Madison public and parochial schools have attended concerts at Powell Hall this school year through the courtesy of the Fine Arts Committee.

The children are prepared for the concerts by their teachers. The concerts have been directed by Gerhard Zimmerman, who also spends time during the performance giving the students background information which will increase their appreciation of the music on the program.

EARL W. HOGAN

Earl William Hogan, 221 Kerr St., is a candidate for the Venice School Board on April 9.

"We feel it is time for a change in our school district," Hogan comments. "Along with a lot of other citizens, we will try to make these changes happen."

"I would like to have the full support of everyone in the district. I also feel that when a board member is sitting on the board, knowing the member is moving out of our district into another community, this is wrong."

"Also, after they move, I feel they should resign their position on the board instead of keeping a mailing address and taking from our district."

"I have lived in Venice all my life and attended the Venice public school. I work for the City of Venice and I care about all the citizens—old and young."

"I have been participating in the park recreation program to help some of our children. We have a club called the South Venice Neighborhood Improvement Association that is trying to help the older and young citizens keep the community of Venice in good shape. I am proud to be president of the club."

"I have no home and I intend to stay here along with other good citizens. I feel that to be a school board member in Venice, you must care for and have love for Venice—your school and the children."

"I plan to help the children of Venice by doing all I can to keep them safe and interested in their school. I would like to try to help other teen-age students and interesting weekends. This could be done by using the old gymnasium."

"I would rather see them being supervised than in the street. Also, I would like to keep their parents active, helping them I can."

"There are a lot of citizens who live in Venice and are in our school district that live on a fixed income. Therefore, I will do all I can so that there will be no tax increase while we are in office."

"There are a lot of things the Venice School needs and a lot of things that the citizens of Venice need in order to keep their school their own. To have a good community to live in, we must have a better school for our children to attend."

"We do not have a good school. Our school has been going down for the past five years."

"Our playground needs to be resurfaced. I live here and I care about what is happening. I believe all other citizens of the community and our school district should care what is happening."

"It is time for the younger citizens to get involved in their community—not only the community, but their school and other things."

"I am 30 years old and unmarried but come from a large family and have part of my family in the school."

"I feel that I could and will devote my time to the school board, not only to the board but to the citizens and children who attend Venice School."

"I reside in the home of my parents, Mr. and Mrs. Earl J. Hogan, at 221 Kerr."

## Public service by aid recipients is proposed

Public aid recipients in Illinois will be required to perform public service work under a proposal newly introduced in the House by State Representative Everett G. Steele (R-Glen Carbon).

"We all want to see that persons who truly need proper assistance receive that assistance," Rep. Steele said. "But given the mounting fiscal problems that face Illinois, we've got to take steps to hold down the costs of government and reduce the growing welfare rolls, which are increasing even in a time of 93 per cent employment."

The bill (HB 1522) would require all able-bodied aid recipients applying after July 1, 1977, to perform some type of public service work. That work, he said, would include county and township work programs and state public park and building maintenance projects which might otherwise be neglected for lack of funds.

Rep. Steele said that during a time of high unemployment there is a tendency for residents from nearby states to cross over into Illinois to collect aid benefits that are "substantially greater than in adjoining states," he commented.

"By coupling a work program with the distribution of public aid, we should greatly reduce or eliminate the flow of our aid dollars to individuals from other states." Also, participation in a program of this nature would help give the individual a sense of worth and accomplishment, he asserted.

A similar program has worked successfully in Indiana, Rep. Steele said, "and there's every indication that it should be successful in Illinois. President Carter also recently endorsed the concept of aid recipients performing work for public projects."

Rep. Steele said that aged, blind or disabled persons would be exempt from provisions of the legislation.

John R. Santoro, regional emergency services coordinator, Illinois Department of Public Health, Region 4, reports that one out of every 68 people in this region have been trained in cardiopulmonary resuscitation (CPR).

The Division of Emergency Medical Services started CPR training in June 1974 throughout Region 4, consisting of the counties of St. Clair, Madison, Monroe, Randolph, Clinton, Bond and Washington.

Coordination between the division and the local offices of the Illinois Heart Association (IHA) resulted in much progress in bringing the four-hour training classes to 10,000 Region 4 people, Santoro adds.

CPR is a lifesaving technique involving rescue breathing and closed chest heart massage. It can be applied to save the life of a victim of heart attack, drowning, poisoning, drug overdose, smoke inhalation and even simple fainting," he said.

"Heart disease alone takes the lives of one million Americans each year. Out of a population of 100,000, five thousands who die from drowning, drugs and accidents, the number of needless deaths each year exceeds the total lives lost in all wars.

"CPR applied to these victims will reduce needless death dramatically. It takes just four interesting hours to learn.

"Does it work? Last year, in Collinsville, a young girl attending her high school graduation saved her grandmother.

"In Belleville, Louis A. Reibling, Ph.D., saved a life on a ball diamond. Retired Belleville policeman Leroy Week saved a life at the entrance to a hospital emergency room.

"Collinsville policeman John Thiel saved a non-breathing girl who had something caught in her throat."

As the emergency medical services coordinator for Region 4, Santoro has been trying to have the four-hour course introduced in high schools in the seven counties.

"There's a state-mandated semester on health," Santoro said. "It's a shame to see thousands of youngsters leave high school each year with no knowledge of this vital skill."

"Each one of them could save a friend, stranger or loved one some day. I don't want anyone in the region to stand helplessly by while someone else dies of drowning, stroke, heart attack or of anything, needlessly."

"Imagine their heartbeat when they later realize that four hours given to this stimulating learning could have saved that life."

"The training is free. People contribute their time to teach the course."

"It's been given in newspaper editorial rooms, firehouses, church basements, some classrooms, hospitals and private homes."

"In the seven counties, most of the instructors are EMTs (emergency medical technicians)."

"EMTs are people who have taken training in all aspects of emergency care and treatment of the seriously ill or injured. They are policemen, firemen, ambulance attendants and others who face life-threatening emergencies in the course of their employment or volunteer activities."

"Their experience with needless death drives them to do something about it. So they work to become CPR instructors and they teach."

"Health education teachers should be CPR instructors," Santoro said.

"I have three men in my region and we can't possibly teach every health class in seven counties, but we can teach the teacher how to teach."

"There's a lad of 19, an EMT. He's going to college full time. He works full time, evening shifts and he taught 90 kids in a high school. It took him a week of teaching two classes a day."

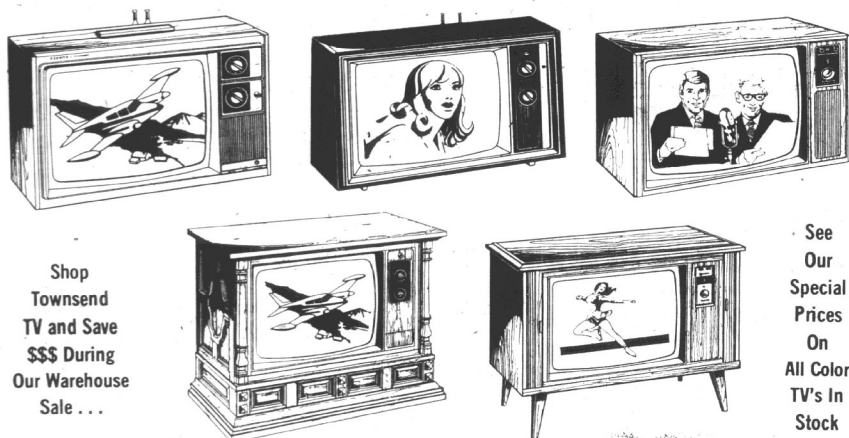

"The people who hate needless death give so much. They deserve more than apathy for their efforts."

## Good Friday service at 12 noon in Downtown GC

Good Friday services in Downtown Granite City will take place at 12 noon at Niedringhaus United Methodist Church, 20th Street and Delmar Avenue.

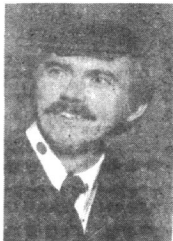

Sponsored by the Quad-City Ministerial Alliance, the Good Friday program has become a tradition each Easter time to enable working people to attend a mid-day service.

Speaker for the special service will be the Rev. Eugene Stevenson, pastor of Central Free Methodist Church, 4150 South St., Pontoon Beach.

Liturgyists include the Rev. Dennis Rutledge of Central Christian Church and the Rev. Edward R. Weston, pastor of the United Methodist Church of Madison.

Agape Unlimited, a singing group from the Second Baptist Church in Granite City, will present two anthems, "Were You There?" and "He Was Wounded For Our Transgressions."

The choral group will be under the direction of Jack Jenkins. Miss Lisa Grothaus will provide the organ accompaniment.

REV. EUGENE STEVENSON  
Good Friday Speaker

The Good Friday offering will be used to aid projects sponsored by the Ministerial Alliance, including the Mobile Meals program.

The public is invited to attend the service, the Rev. Weston said today.

## Lucco to attend energy meeting in Washington

Representative Joe Lucco (D-Edwardsville), chairman of the Intergovernmental Committee of the Illinois Energy Resources Commission, will meet in Washington on Friday with the staff of federal energy czar Dr. James Schlesinger.

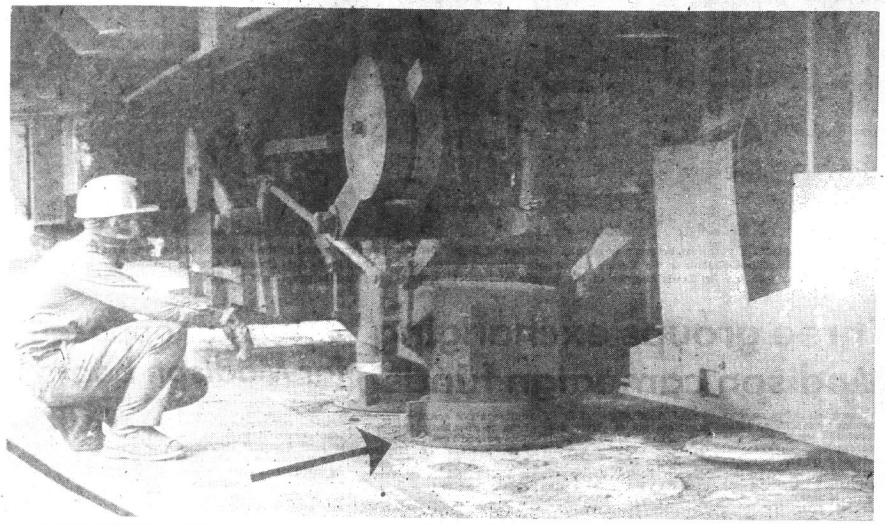

"The major restructuring of the state's energy-related agencies that will be introduced into this session of the General Assembly is similar to the one now being developed by the federal government," Lucco said.

"It is obvious, he said, "that the Illinois plan and the national proposals must be compatible in order to achieve the maximum results in the minimum amount of time."

Lucco said that continued attention to energy development is critical to the welfare of the state and the nation as a whole, and must be given high priority.

"The shortages of only a few years ago continue today," he said. "There isn't as much publicity, and we have temporarily managed to avoid brownouts and long lines at gas stations, but the condition is only temporary and we must proceed with all due haste to establish local, state, county and federal plans that all pull in the same direction to meet mutually shared goals."

Lucco said he anticipates a productive meeting with Dr. Schlesinger and plans to report to the Illinois Energy Resources Commission concerning the details of his Washington talks as soon as possible following his return to Illinois.

NEWLY-INSTALLED JUMPER PIPES (arrow) are helping Granite City Steel operate its coke ovens while keeping the air cleaner. The system centers around an American Iron and Steel Institute larry car — so-called because it was developed for the Institute, working with the U. S. Environmental Protection Agency. Foreman Donald Teutrine inspects the larry car, the large structure above, as pulverized coal is charged into the

oven (below), containing smoke which formerly escaped. The jumper-pipe system allows gas pressure inside the oven to take emissions into the adjoining oven and then into a collecting main. The car travels back and forth on tracks atop the ovens to charge the coal. Coke produced is then used in the blast furnaces to produce molten iron from iron ore. Similar jumper pipes were previously installed on two other larry cars used on the GC Steel coke oven batteries.

## Three groups exchanging Madison campaign funds

A check of campaign contributions to candidates being supported by the Madison City Organizations shows that disclosure reports filed on behalf of three supporting organizations indicate the majority of their revenue came from each other.

The Goodfellow Club of Madison, the Madison Ladies' Democratic Club and the Madison Ladies' City organization all have campaign financing reports on file with the Madison County clerk, but each listed its total assets as being from one of the other two, a Press-Record survey has shown.

The Madison Ladies' Democratic Club, of which Minnie Brown is chairman and Christine Green is treasurer, lists one contribution this year, a \$600 donation Jan. 3 from the Goodfellow Club of Madison. The Madison Ladies' City Organization, of which Winnie Sasyk is chairman and John Dant is treasurer, lists one contribution this year, a \$2,000 contribution Feb. 1 from the Goodfellow Club of Madison.

The Goodfellow Club of Madison shows five contributions since early December, including a Jan. 7 contribution of \$600 from the Madison Ladies' Democratic Club and a Feb. 1 contribution of \$2,000 from the Madison Ladies' City Organization.

## Low cost Long Distance for night people.

One of the most overlooked bargains around these days is the nighttime rate for Long Distance.

By dialing direct and calling between 11 p.m. and 8 a.m. weekdays you can save up to 60% from daytime rates.

And it's not just inexpensive—it's practical, too.

For example, night people can dial California at 11 p.m. and it's only 9 p.m. out on the Coast.

While early risers can dial New York at 7:55 a.m. and it's already 8:55 Eastern time.

Imagine, saving 60% any weekday just by calling after 11 p.m. or before 8 a.m. (Discounts are smaller on calls within Illinois and to Alaska and Hawaii.)

And this is only one of many money-saving ideas you'll find in our new booklet, "How to Save Money on Long Distance."

You'll also find rate charts for calls within Illinois, out-of-state rate charts, an area code map, how to avoid charges for bad connections and wrong numbers, information about other bargain calling times,

and much more.

They do apply on calls placed with an Operator from a residence or business phone where Direct Dial facilities are not available.
